"If you are looking for a European city to live in with history, culture, and a nightlife then Budapest is your best bet. I have been fortunate enough to have traveled to almost 50 countries and I must say that Budapest is one of the top cities on my list. Sure there are some cities which are more beautiful or have more history, but when factoring the cost of living, this place is #1. In terms of quality of life and prestige of the University, Corvinus is the ideal place for anyone who wants a good education and to live comfortably without accumulating a 6 figure debt.

More information:

Plus, with its interactive programs, Corvinus makes it easy to meet hundreds of students from all over Europe and the world. I have had classes with students from Africa, Australia, Asia, and South America and now have a better understanding of their countries and lives, not to mention friends to visit in almost every time zone.
Do yourself a favor and consider this; If not now, when will you have another opportunity like this? Come to Budapest, travel the whole of Europe on cheap flights, discover the truth behind the statement that Budapest has something to do every night, make new friends the world over, and maybe go to a few classes and get your masters degree too."
- Jonathan Hopkins, II. year student
