Connecting to Eduroam WiFi network under Windows 10

To connect to the Eduroam WiFi it is required that the comupter has a WiFi device (integrated or connected), and it to be turned on. This can be done by a switch on the computer, or via software.

To connect to the Eduroam WiFi click on the WiFi network icon on the bottom left part of the screen, right next to the sound settings icon.

On the appearing screen choose "Eduroam" WiFi connection.

Select the "Connect automatically" option then click on "Connect".

At the next question also choose "Connect".
