International Project Manager

Program instructor:
Dr. Blaskovics Bálint

Specialization:
Economic Science

Program time in semesters:
2 semesters

Program language:
English

Site/Location:
Budapest

Division:
Correspondence

Program Type:
Normal

The aim of the program – which is developed in the course of a cooperation with the PMI Budapest, Hungarian chapter – is to train project managers who can adopt to the challenges of the XXIst century, and are able to manage medium complexity projects in normal and virtual environment. The program focuses on – besides providing a comprehensive, modern, and professional theoretical background – how people can apply that knowledge which they learn in practice. Thus, the program combines the practice orientation with teaching classic project management methodology and the requirements of the modern era.

Qualification offered by the educational program:
► International project manager
► Economist specialized in international project management

Admission requirements:
► College or university degree
► College or university degree from economics
► Personal interview focusing on the candidate’s project management experience, language skills and motivation

Documents needed for application:
► Resume/CV (focusing on project management experience)
► Language exam certification (if there are any)
► Photocopy of college or university degree

APPLICATION AND FURTHER INFORMATION

This program is highly recommended for those, who want to learn – besides a comprehensive theoretical background – solid and widespread knowledge applicable in practice. Thus, we recommend this program for those, we want to work as a project manager in the future, or – as a practitioner – want to improve their current level of knowledge. We also recommend to have at least 1-2 years of project (not necessarily project management) experience or participation in leadership programs, in order to maximize the efficiency of the program.

Tuition fees:
535,000 HUF / semester

Application deadline:
July 30
