- 7. The competences, knowledge elements to be learned in course of the training, the knowledge, personal capabilities, skills to be acquired, the application of the qualification in the specific environment, system of activities:**

The objective of the program:

The Executive MBA further education with specialised economist specialisation are specifically general programs which cover all the more important areas of the business, therefore the fundamental objective of the programs is to train professionals who - armed with their wide range of knowledge - are able to establish a strategic approach which ensures the survival and the development of enterprises, who have the skills necessary to make decisions, who know their way around the international economy, and who are able to lead the activities of human resources, as well as organisations and enterprises in general. Since the fundamental objective of the training is to expedite careers - i.e. facilitating the further promotion of the students in corporate manager positions - therefore the support thereof can be established as an important objective as well, of course.

The graduates of the specialised further education program:

- owing to the strongly practice-and professional-oriented nature of the curriculum the graduates not only possess and master the knowledge in this area but also become able to work and make decisions on their own, as well as to have ambitious corporate thinking,
- can apply their solid and profound fundamental knowledge in practical situations as well, are able to plan, organise and lead the work processes of private sector and public sector organisations, both on the Hungarian and the international level, and they are able to lead people and group,

- are able to solve tasks related to the management of business processes, to prepare analyses, reports and surveys, and to perform individual and group work,
- are able to recognise business problems and to prepare the decisions aimed at solving such problems, as well as to acquire and analyse the necessary information,
- are able to recognise questions of strategic nature and to actually participate in answering these questions,
- know the operational and development processes, the regularity and the communication customs of business life,
- are proficient in the relevant literature and are able to make use of it while solving practical problems.

Personal abilities and skills necessary to practice the qualification:

- commitment to professionalism,
- ability to recognise and solve problems individually,
- innovation skills,
- critical analysis and proposal-making skills,
- leadership skills,
- ability to recognise the opportunity of tolerance and synergy,
- sensitivity to business ethics and partially to social issues
- verbal and written communication skills
