"My experience in Passau was unique. The university life is vivid, there are always programmes and interesting workshops and lectures to participate in. The orientation weeks offer colourful events and create occasions to meet and get to know students from all over the world. For me this international environment is the most amazing experience and I am very glad that I could be the part of it."

Márta Cserepkai

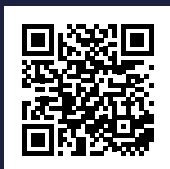

"The Double Degree programme I took part in was with the University of Palermo, in Sicily. The opportunity of having two degrees was extraordinary, as well as the city itself, so I knew I wanted to participate. All in all, it was a great experience - people were very welcoming and I obtained important knowledge. The best part was that the university modules were really useful and I still had time to explore besides my studies!"
