

DLA Piper Business Advisory is now looking for **Intern** in the field of financial advisory

DLA Piper Business Advisory is the financial advisory and business consulting arm of DLA Piper, providing professional services in the fields of **corporate finance, Mergers & Acquisitions, business valuation, financial modelling** and business planning, capital and debt **financing, strategy** and **litigation support**, with special focus on regulated industries such as **energy and infrastructure, life sciences, financial services**, and various other segments.

DLA Piper Business Advisory **ranked 1st place based on number of successful M&A transactions in Hungary in 2019** according to MergerMarket. DLA Piper Business Advisory is recognized as one of the **leading business valuation and financial modelling teams** in Hungary.

DLA Piper is one of the most highly recognized and **largest global law firms**.

What we offer:

- Opportunity to participate in a **great variety of projects** in a diverse set of industries for **high-profile clients**, both in Hungary and Europe, as well as overseas
- Accelerated and continuous professional and personal **development** tailored to your goals and abilities
- **Client exposure** from early on
- Motivating **compensation package** comprising competitive base salary, plus outstanding performance bonus potential, and substantive fringe benefits (incl. comprehensive private health insurance)
- We are combining attractiveness of the **agile and informal work-culture of a growing M&A boutique** with the **advantages of a global firm**, but without the bureaucracy and hierarchical structure of large audit firms
- Collaborative and experienced team of young professionals
- Flexible work schedule (preferably full-time, min. 30 hours per week; home office options)
- Modern mobile equipment (iPhone, laptop); representative and green work environment (near MOM Park)

Main tasks and responsibilities:

- Development of complex financial **models** and business plans
- **Valuation** of companies and assets, pricing of M&A transactions
- Participation in complex **M&A** projects and cooperate with professionals of various fields (financial, legal, tax etc.)
- Contribution to a strong **client relationship** through interactions with clients
- **Research and analysis** of industries, market data and companies

Your professional background:

- Ongoing university studies (preferably in Finance MSc; CEMS or membership in college for advanced studies is an advantage)
- Basic education in financial analysis, corporate finance and business valuation
- Fluency in Hungarian and English
- Sound skills in MS Office, especially MS Excel (VBA knowledge is an advantage)

We are looking candidates with:

- Desire to work in financial advisory
- Outstanding communication and interpersonal skills
- Critical approach and analytical skills
- Ability to understand, organize and solve complex tasks
