Alternatives Client Platform Analyst

Apply for a job at BlackRock today!

BlackRock Alternative Investors (BAI) is charged with establishing BlackRock as the preeminent provider of alternative investment products globally. BlackRock has approximately \$215 Billion in Alternative assets including real assets, credit, private equity solutions, hedge fund solutions and multi-alternative strategies. This unified global operating platform combines expertise, resources, and capabilities across asset classes with investment teams located in London, Dublin, New York, San Francisco, Seattle, Princeton, Hong Kong, Boston and Santa Monica among other locations.

Alternatives Client Platform

We are growing our Alternatives Client Platform in Budapest for the rapidly growing alternative investments platform that will serve as the hub to support the coordination and administration of the investor communication programme to ensure a best in class client experience. This team is responsible for a wide range of activities, including production of client & fund reports, marketing collateral and presentations, maintaining platform data and analytics and the roll out of new technologies to create a scalable platform. We are seeking a high-energy, self-motivated individual to help grow the new team. This individual must be comfortable working in a fast-paced environment, responsible for managing multiple deliverables and tasks concurrently. The role represents an opportunity to learn Alternatives asset classes and grow your career at BlackRock, the pre-eminent global asset manager.
