Memorandum

Name of the organizational unit: International Relations and Accreditations
Addressee: Legal, Administrative and Regulatory Services

Subject: 2021-23 Erasmus+KA131 project; available scholarships for mobilities to partner countries

In the 2021-2027 programme period, a maximum of 20% of the institutional grant can be allocated to mobilities to Erasmus Partner Countries (non-EEA countries). In connection with this, the resources available for the academic year 2022/2023 will be distributed based on the following principles, in accordance with the Regulations of University partial trainings.

- Preference will be granted to student partial studies over mobilities of the faculty, therefore almost the entire amount is to be spent on student partial studies.
- Priority will be given to supporting student partial studies to the UK in order to maintain quality institutional partnerships.
- Grants based on individual basis (for faculty members).
- The remaining amount will be distributed proportionally between CEMS and non-CEMS students according to the proportion of successful applications in the main application period for partial studies abroad.
- Those students are eligible to receive a grant (until the maximum amount of available institutional grant is reached) who won international mobilities in either the main application period, or in the extended round of applications.
- Students will receive financial support following the final order of their scores in the application for partial studies abroad, until the maximum amount of available institutional grant is reached.
- In the event of withdrawal, the next student with the highest score will receive the grant.
- Students are expected to be notified of the grant after the announcement of the results of the extended round of application.

Dr. Zoltán Oszkár Szántó

Head of International Relations and Accreditations
