 - degree orientation: balanced (40-60 percent)
 - thesis credit value: 15 credits
 - minimum credit value of elective courses: 6 credits
7. **International Standard Classification of Education field of education code:** 345
8. **Master's degree training objectives and professional competences**

The objective of the program is the education of economist experts who, with their skills attained in every major area of the business field, are capable of developing a strategic view that ensures the survival and development of organisations and enterprises. Graduates will know the major tendencies of international economics, and will be capable of managing human resources and, in general, the activities of organisations and enterprises. Another goal is accelerating their career progress with the appropriate theoretical studies. They will be prepared to continue their education, if desired, at PhD level.

 - 8.1. **Attained professional competences**
 - 8.1.1. **At the MBA level, the economist has**

a) knowledge

- Has mastered the concepts, theories, processes, and characteristics of economic science and the micro and macro organisational levels of economy, knows the definitive economic facts. Understands the structure, operation, and Hungarian and international relationships of business organisations, their information and motivational factors, especially the institutional environment.
- Knows the European integration process and European Policies related to its activity.
- Possesses the modern and theoretically demanding mathematical-statistical, econometric, and modelling methods of problem recognition, definition, and solution and information gathering and processing, and is aware of their limitations. Knows the rules for planning and managing enterprises, business organisations, and projects, and their professional and ethical standards.
- Knows the factors that affect business and the methods that are used to influence them. Furthermore, knows decision-making and decision support methods.
- Has a comprehensive knowledge of the most important interrelationships between the economic system and other social sub-systems.
- Has comprehensive management and organisational skills. Possesses a relevant, comprehensive social and public erudition beyond professional issues.
- Along with a high-level mastery of everyday language, knows the economic terminology and its expressive and compositional characteristics in his/her native language and at least one foreign language.
- Has mastered the written and oral forms of professional and efficient communication, the methods of visualising data, including the options offered by infocommunication technology.
- Knows the possibilities, requirements, tools, and methods of career planning in a wide context, including the conditionalities and tools of helping and motivating others.

b) skills

- Formulates independent, new deductions, original thoughts, and approaches, is capable of utilising sophisticated analytic and modelling methods, of creating strategies for the solution of complex problems, and of making decisions in dynamic Hungarian and international environments and corporate cultures.
- After attaining practical knowledge and experiences, leads medium and large enterprises or complex organisational units, performs a comprehensive economic function in a business organisation, organises and manages complex business processes, manages resources.
- Is capable of efficient work in an international, multicultural environment.
- Develops a unique viewpoint based on his/her own analysis and defends it in debate.
- Is capable of developing strategies to solve complex issues, planning the solution, making decisions, and offering professional advice to economic operators. If necessary, uses an interdisciplinary approach in analyses and practical problem-solving.
- Is prepared to actively participate in social and public life. Is capable of recognising and understanding social issues and of processing new phenomena.

- Participates in economic processes, projects, group work; as a leader, plans, manages, organises, coordinates, and evaluates activities.
- Prepares professional summaries and analyses, holds presentations, and participates in professional debate in the specialist field, in Hungarian or foreign languages.
- By lifelong learning, creates an individual strategy for development and career-planning; organises and manages it. Plans and organises the professional development of colleagues and employees in his/her work organisation as their manager.

c) attitudes

- Has a critical attitude towards the work and behaviour of him/herself and any subordinates, is innovative and proactive in managing economic issues.
- Is open to new results of economic science and practice.
- Is characterised by a cultured, ethical, and objective intellectual approach to persons and social issues, in his/her work, pays attention to the wider range of sectoral, regional, national, and European values (including social, ecological, and sustainability considerations). Strives to improve his/her knowledge and work relationships; motivates, helps, and supports any colleagues and subordinates to do the same.
- Considers correcting mistakes and improving his/her employees a duty. Aids the professional development of any colleagues and subordinates.
- Is interested in the results and solutions coming from related fields of science, and is open to building relationships.
- Is dedicated to quality work. Is decisive, constructive, cooperating, tolerant, open, and takes initiative in project and group work.
- Is motivated by the need to increase professional and social knowledge as well as social usefulness in planning and managing his/her own career.

d) autonomy and responsibilities

- Independently selects and utilises relevant problem-solving methods in areas important for organisational policy, strategy, and management, performs financial analysis, decision-preparation, and consulting tasks independently.
- Independently creates, organises, and manages major enterprises, or major organisations and organisational unity.
- Takes responsibility for his/her own work, the organisation or enterprise under his/her control and the employees thereof.
- Independently identifies, plans, and organises the professional and general development of his/herself and any employees and takes responsibility for them.
- Independently represents his/her developed professional opinion in previously known decision-making situations. Takes responsibility for the environmental and social effects in new, complex decision-making situations.

9. About the Master's program

Remarks

Type: C-compulsory courses, CE-core elective courses, E-elective (optional) courses
Methods of assessment: ex-exam (exam at the end of the semester, but other forms of assessment are possible during the semester), pg- grade based on the practical assignments given during the course of the semester, a=signature, ce- Comprehensive examination.
A subject that can be completed in a preferential study order (PSO) on the basis of Section 92 of the Study and Examination Regulation (SER).

Physical education

Students wishing to play sports can only take a physical education course with the payment of a specified fee.

Foreign language

During their studies, students can learn a language in the form of paid courses within the framework of elective courses.

Curriculum

It is recommended to include the courses in the schedule according to the sample curriculum. The student may deviate from this, taking into account:

1. the pre-study order,
2. announced courses in the semester
3. Completion of an average of 30 credits per semester
4. In addition to the compulsory courses, students may take elective courses from the offer of elective courses (see Neptun) as well as foreign languages.
5. A minimum of 2/3 of the required amount of credit must be completed at Corvinus University.

* Hungarian Language is a compulsory course for the students participating in the Stipendium Hungaricum scholarship program in the first two semesters.

The detailed rules related to the admission of the courses and the completion of the courses are included in the Study and Examination Regulations!

Please note that curriculum changes are possible!
