PROGRAM INFORMATION FOR ADULT TRAINING ACTIVITIES

	I. General description of the program	
I.1.	Name of the program, its own identification number	Fundamentals of Mathematics
I.2.	Number of hours in the program	28 hours (14x90 minutes)
I.3.	Name of the document obtained by the completion	Certificate
I.4.	Mode of the evaluation	Written exams; oral exal exam in case of not satisfactory performance Evaluation: 61-100% passed 0 - 60 % failed
I.5.	Type of exam defined by law	The program does not define the completion of a final exam.
I.6.1	Extent of absence allowed	20 % 5 hours
I.6.2	Consequences for the person taking part in the program if the permissible absence is exceeded	The participant may be excluded from the program.
I.7.	Consequences of breach of contract by the participant and the adult educator	Failure to comply with the adult education contract will be interpreted by the parties as a breach of contract. In the event of a breach of contract, there is a single (written) notice from both parties. If the called party still does not perform after the notice, the other party may terminate the contract immediately. In the event of a legitimate complaint from a participant, they may recover a proportionate part of the training fee (if they are liable to pay); in the case of a legitimate complaint from an adult educator, it may oblige the participant in the training to reimburse a proportionate part of the training fee (if the participant is obliged to pay). In case of excess of the allowable absence the adult trainer shall act in accordance with the regulation specified in I.6.2.

II.	Description of the program			
II.1.	Place(s) of program	Online, Microsoft Teams		
II.2.	First day of the program	2023	February	14
II.3.	Estimated date of ending the program	2023	March	30

II.4.	Scheduling the progress of the training broken down into curriculum units[1]			

Curriculum unit of the program		Number of hours	Duration (start - end)	Scheduling
Name of the program	Mode of study			
Limit value of series, limitation, monotony	seminar	4	14 February, 2023 13:40-15:10	Lecture 1-4.
			16 February, 2023 13:40-15:10	
Definition, limit value, continuity of infinite series and functions	seminar	4	21 February, 2023 13:40-15:10	Lecture 5-8.
			23 February, 2023 13:40-15:10	
Mean value theorem, differential quotient of functions, chain rule, L'Hospital's rule	seminar	4	28 February, 2023 13:40-15:10	Lecture 9-12.
			2 March, 2023 13:40-15:10	
Power series, Taylor series, function analysis, indefinite integral	seminar	4	7 March, 2023 13:40-15:10	Lecture 13-16.
			9 March, 2023 13:40-15:10	
Integration techniques, definite integral	seminar	4	14 March, 2023 13:40-15:10	Lecture 17-20.
			16 March, 2023 13:40-15:10	
Improper integral, vector spaces, matrices, linear independence, rank, Gaussian elimination	seminar	4	21 March, 2023 13:40-15:10	Lecture 21-24.
			23 March, 2023 13:40-15:10	
Inverse matrix, eigenvalue, eigenvector, diagonalization, symmetric matrix, quadratic form, multivariate functions, continuity, gradient, Hesse matrix, multivariate optimization, Lagrange multiplier	seminar	4	28 March, 2023 13:40-15:10	Lecture 25-28.
			30 March, 2023 13:40-15:10	

II.5.	The training fee, taking into account the crediting of prior knowledge and the timing of the payment of the training fee in proportion to the completion of the training.	
II.6.1	full amount	49.000 HUF or 139 EUR
II.6.2	exam fee[2]	- Ft

1 Not relevant for closed electronic distance learning.
2 If the training is accompanied by an examination as defined by law and the adult educator is entitled to organize the examination.

II.6.3	resit fee	- Ft
II.6.4	scheduling of the payment	The participant or cost bearer pays a lump sum until the start of the training.
II.7.	The training is provided (in part or in full) at the expense of budgetary or EU funds.	☐ no ☐ yes[3] fact of the contribution, name: the amount of the contribution: Ft
II.8.	Mode of application	online on the website of the institution
