- a. The scholarships provided for in the RSFB shall be assessed on the basis of the criteria set out in this Annex.
- b. The tables include recommended scores for the activity, which may be deviated from in the call for proposals.
- c. The calls for proposals shall specify the period of activity which will be taken into account for the purposes of the evaluation.

2) Evaluating academic performance:

- a) For the purposes of evaluating academic performance
 - aa) either the scholarship average laid down in 72(6) of the SER should be applied,
 - (1) The scholarship average is calculated on the basis of the results of all the subjects taken during the active semester. The scholarship average is the product of the credit value and the grade of the subjects completed in the semester divided by the number of the credits taken. For the purposes of calculating the scholarship average, the grades achieved in the compulsory and compulsory elective subjects and their credit values shall be weighted by 1.2.

Scholarship average=

$$\frac{\sum 1.2 \times \text{credits}^C \times \text{grade}^C + \sum \text{credits}^E \times \text{grade}^E}{\sum 1.2 \times \text{credits}^C + \sum \text{credits}^E}$$

$$\sum 1.2 \times \text{credits}^C + \sum \text{credits}^E$$

where

C: all compulsory, compulsory elective subjects and compulsory subjects in subspecialisations/specialisations according to the sample curriculum/operational curriculum,

 BUDAPESTI CORVINUS EGYETEM	STUDENT REQUIREMENTS PART 4	Version number: 00 Effective from: 10 July 2022 File number: JISZ-SZ/2/2023
Regulation on Student Fees and Benefits		

E: stands for free elective subject taken according to the sample curriculum.

(2) scholarship average of first-semester master students: based on the "scholarship average" derived from the admission points (100/20=5)

ab) or the credit-weighted average academic performance as defined in 72 (2) of the SER shall be applied:

Credit-weighted average academic performance = $\sum(\text{credit points} \times \text{grade}) / \text{earned credit points}$

- b) The calculation of the scholarship average and the calculation of the credit-weighted average academic performance is based on the results of all the subjects taken and completed by the student in the semester(s) concerned.
 - ba) The grades obtained at another higher education institution within the framework of an additional (parallel) student status, during a parallel programme within the institution or during previous studies may not be included in the scholarship average and the weighted average academic performance.
 - bb) The subjects closed with a fail grade or with a 'exam not taken', 'not completed', 'absent' entry are included in the numerator of the formula with a zero grade, an exception to this is if the student does not appear at the retake examination for the improvement of the grade of a successful exam in a given subject and receives an 'absent' entry, in which case the given subject is included in the numerator with the last successful grade and credit value.
 - bc) For students participating in a master programme, the subjects to be completed simultaneously with the programme aimed at obtaining the master degree - and representing credits in addition to the credits required for obtaining the diploma - as stipulated on a compulsory basis during the higher education admission procedure in the framework of the preliminary credit recognition procedure after taking into account the credits completed during previous studies, shall not be included in the scholarship average, and the credit-weighted average academic performance.
 - bd) Subjects completed under a guest student status, regardless of whether the student completed them in the framework of a guest student status at a domestic or foreign higher education institution, shall be considered as having been completed by the student at the University and shall be included in the calculation of the scholarship average and the credit-weighted average academic performance with the credit values and grades approved by the Credit Transfer Committee.
- c) The scholarship average must be used
 - ca) For calculating the amount of the study scholarship,
 - cb) For the National Higher Education Scholarship,
 - cc) For the Study abroad scholarship,
 - cd) For the Corvinus Excellence Scholarship
- d) The credit-weighted average academic performance should be used
 - da) for Hungarian state scholarships (end-of-year reclassification),
 - db) For the Corvinus scholarship (at the time of the review).
- e) Ranking criteria used to calculate the amount of study scholarships:

 BUDAPESTI CORVINUS EGYETEM	<p>STUDENT REQUIREMENTS PART 4</p>	<p>Version number: 00 Effective from: 10 July 2022 File number: JISZ-SZ/2/2023</p>
<p>Regulation on Student Fees and Benefits</p>		

ea) for a student who established his/her student status before September 2019

- (1) The academic scholarship average obtained is converted into study points. This involves setting the academic scholarship average within a range composed of bands of 0.25, with a lower limit of 3.00 and an upper limit of 5.00, and the scores for each band are as shown in the table below.

Regulation on Student Fees and Benefits

Serial number of band	Lower limit of the band based on scholarship average	Upper limit of the band based on scholarship average	The multiplier applied to the part of the scholarship average falling within a given band	Study score
1.	3.00	3.25	1	identical with the scholarship average
2.	3.26	3.50	2	details specified in (2)
3.	3.51	3.75	3	
4.	3.76	4.00	4	
5.	4.01	4.25	5	
6.	4.26	4.50	6	
7.	4.51	4.75	7	
8.	4.76	5.00	8	

(2) The achieved scholarship average is broken down by band and the values in the hundredths position of a given band are multiplied by the multiplier assigned to that band, the sum of which is the study score. For example, in the case of a 4.32 scholarship average, the first (1st) band gives 3.25, the second (2nd) band $0.25 \times 2 = 0.50$, the third (3rd) band $0.25 \times 3 = 0.75$, the fourth (4th) band $0.25 \times 4 = 1.00$, the fifth (5th) band $0.25 \times 5 = 1.25$, the sixth (6th) band $0.07 \times 6 = 0.42$. This results in a total study score of 7.17 for the student.

- (3) Students who are not eligible for a scholarship, i.e. who have not completed at least 23 credits and a scholarship average of 3.00, should be excluded from the homogeneous groups for the purpose of awarding scholarships.
- (4) The median value of the scholarship average of students eligible for scholarships per study programme/homogeneous group shall be determined for the eligible group as defined in paragraph (3). The median value must be rounded to two decimal places

- (eb) For students who established student status in September 2019 and thereafter, the amount of the study scholarship shall be determined as follows:
- (1) At university level, the amount of the scholarship is determined uniformly for the average scholarship achieved in such a way that
- the amount of the minimum monthly scholarship set by the Presidential Committee is fixed at the square of the scholarship average of 3.80,
 - the amount of the maximum scholarship set by the Presidential Committee is fixed at the square of the scholarship average of 5.00,
 - in the range between 3.80-5.00, the amount of the scholarship associated with the scholarship average is determined by hundredths between the minimum and maximum monthly scholarship amounts.
- (2) Within a given homogeneous group (programme), the scholarship amount corresponding to each scholarship average shall be allocated starting from the highest scholarship average in descending order and shall be cumulated with

the scholarship amounts already allocated as long as the scholarship amount for the given homogeneous group covers this. The scholarship average of the homogeneous group's scholarship allocation, for which funding is still available, determines the minimum scholarship average above which students receive a study scholarship in the given homogeneous group.

- g) Students who have changed for another study programme/programme after the semester on which the scholarship is established must be placed in the homogeneous group of the programme that is valid in the semester on which the scholarship is based.

An exception is made for students taking part in a 6+1 semester bachelor programme and a four (4) semester master programme admitted with the February intake, as under the KKK they can only apply for five (5) months in the last semester, which is an autumn semester.

(7) It is possible to move out (give up one's place) free of charge before the end of the period indicated in the application for admission by submitting a "Request for moving out during the semester" in Neptun, along with the relevant mandatory medical or other certificate, but only in cases where the student is eligible for an Exceptional social needs-based grant or in the case of marriage. 100% of the charge is due for any month already started and the charge (deposit) paid at the time of submitting the Move-in Request will be forfeited. Exceptions to this rule are students who commence studies abroad (provided that they have notified this in good time and provided official proof in accordance with their obligations to register for move-out. If the applicant has been allocated a place for one academic year, he/she will lose his/her place for the second semester if he/she cancels it in a Neptun request between 1-7 December. No fees shall be payable in this regard.

Students who have ten (10) months of dormitory accommodation are not eligible to apply for a dormitory place in the admission procedure for the spring semester.

(8) If the applicant has been awarded accommodation for five (5) months or has cancelled the second semester of dormitory accommodation, but has not officially moved out of the dormitory by the deadline set in the academic year's timetable (but no later than the deadline set in the decision on his/her Move-in Request and/or the deadline agreed in the Move-out Request submitted in Neptun), he/she will forfeit the charge (deposit) paid when submitting the Move-in Request.

(9) If the applicant has been admitted to a dormitory as a result of the admission procedure, he/she must submit a Move-In Request no later than one (1) week after the date of notification of admission, after paying the deposit. If the move-in date is within one (1) week, the Move-In Request must be submitted no later than the move-in date. If the successful applicant fails to submit the Move-In Request by the deadline, his/her application for admission to a dormitory will be invalid. By submitting the Move-In Request, the student's Dormitory Residence Agreement will enter into force even without signature: The dormitory fees and the obligations of the dormitory student, as well as the provisions on the termination of the Agreement, shall enter into force.

To apply, you must submit your request electronically via the Neptun application system from 1st to 7th December. The Head of Campus Services shall consider the Request for Extension, and the Head of Campus Services will take note of the Request to Move Out (request for cancellation).

(11) If a student's student status who has moved into the dormitory ceases (or becomes passive) and/or his/her mode of delivery (e.g., but not exclusively from daytime to evening or correspondence) and/or his/her form of funding (e.g., but not exclusively from state-financed to self-funded) changes, he/she shall immediately (on the first working day following the change) inform the dormitory director thereof in writing, and his/her dormitory residence contract shall expire on the 15th day following the change. If, at the time of the change, the student applies in writing to maintain his/her accommodation, a new contract/agreement may be concluded with him/her and the rent for the dormitory place shall be set at the cost applicable to the dormitory building in question. Changes in student status are regularly monitored/checked by the Dormitory Neptun coordinator. If the student fails to comply with this obligation, he/she will immediately lose the charge (deposit) paid at the time of submitting the Move-In Request and his/her place in the dormitory.

(12) The Campus Services and the Head of the Dormitory Division are responsible for the processing, scoring and aggregation of applications for admission to the dormitories. (Exceptions to this rule are the applications for the colleges for advanced studies described in paragraph (18) of this section.) Establishing the outcome of the dormitory admission procedure (see paragraph (15) of this section) is the responsibility of the Head of the Dormitory and the Dormitory Neptun Coordinator of the respective dormitory building, with the approval of the Head of Campus Services, based on the data extracted from the Neptun system. Comments on the outcome can be made by submitting a *Request for Comments* in the manner and by the deadline indicated in the application system, which shall be considered by the campus directors in consultation with the Dormitory Neptun Coordinator and the Head of the Dormitory Division. (The Head of Dormitory Division Head and the Neptun administrator are responsible for collecting the comments and providing a preliminary opinion thereon.)

The Head of the Dormitory of the respective building, in cooperation with the Dormitory Neptun Coordinator, determines the admission cut-off score for the respective dormitory building according to the aggregated scores, taking into account the order of preference given

to each building by the applicant, prepares the list of the residents admitted to each dormitory and sends it to the Head of Campus Services for approval.

The Head of Campus Services shall rank the applicants in descending order in view of the number of places, shall determine the number of candidates to be admitted and shall decide on the number of candidates to be admitted after the commenting period.

Applicants can find information on admission/rejection in the electronic application system (Neptun).

V. APPLICATION FROM FOREIGN STUDENTS FOR DORMITORY ACCOMMODATION

(1) Non-Hungarian students who do not speak Hungarian may apply for a place in the dormitory of their choice in English via a separate online Dormitory Application Form published on the Corvinus website. It is the responsibility and competence of the Head of the Dormitory Division to publish the application form online and to ensure that it can be completed online. The application form must be completed even if the University is obliged to provide the applicant with a dormitory place under a scholarship programme or an interstate contract.

(2) Foreign applicants must complete the online application form by the deadline specified in the call for applications.

(3) It is the responsibility of the Head of the Dormitory Division to aggregate the applications received by the deadline and to prepare a statement of the applicants for each indicated dormitory building and educational programme. He/she shall send the list per dormitory to the competent Head of Dormitory no later than the working day before the first round of results are announced. At the same time, he/she shall send the list of educational/scholarship programmes to the organisational unit in charge of the educational/scholarship programmes concerned where the list is completed with the funding information for the applicant (scholarship programme, self-funded, specificities of the intergovernmental contracts related to the programme) and the correctness of the data provided is checked.

(4) A foreign applicant who submits a proper application is subject to the same rights and obligations set out in the general terms and conditions of the respective dormitory building and the dormitory building's house rules as applicants who apply via the Neptun system. The dormitory fees and additional services payable by foreign students are the same as those set out in Annex 6 of the RSFB, unless otherwise stipulated in the terms of the scholarship programme, the rules of paying the costs or the provisions of the interstate contract relating to the programme.

(5) The provisions of paragraphs (1) to (4) shall not apply to students placed to dormitories under the NKA (National Cultural Fund of Hungary) budget laid down in Annex 6 to the RSFB, nor to students who are placed on the basis of a special agreement between the University's organisational units and the dormitory.

 BUDAPESTI CORVINUS EGYETEM	STUDENT REQUIREMENTS PART 4	Version number: 00 Effective from: 10 July 2022 File number: JISZ-SZ/2/2023
Regulation on Student Fees and Benefits		

(6) Foreign students can only move into the dormitory if they have submitted their Move-in Request in Neptun by the deadline and paid the charge of the Move-in Request (deposit), hence their dormitory status is established. (Applies to all foreign students studying in a programmes/scholarship programme/forms.)

(7) Students studying under the Stipendium Hungaricum Scholarship Programme (SH students) may be allocated a maximum of 110-110 places (220 places in total) per dormitory in the Kinizsi Dormitory and the Tarkarét Dormitory. This ratio may be deviated from only in justified cases, based on the decision of the Head of Campus Services and with the agreement of the Head of the Dormitory Division. Principles of distributing dormitory places:

- a) The total of 220 places shall be allocated to first-year (freshly admitted) and PhD (first and upper-year) SH students in the order in which applications are received.
- b) If the total number of first-year or PhD SH students requesting a dormitory does not reach 220, the remaining dormitory places may be distributed among the upper-year SH students requesting a dormitory place. In this case, places shall be allocated to the students with the better results, calculated on the basis of the academic scholarship average of upper-year SH students. In the case of identical averages, preference shall be given to the SH student who applied earlier.

(8) Placement in the preferred dormitory indicated in the application is not guaranteed, it is subject to availability.

(9) In all cases, the dormitory status will be established for the period applied for (5 or 10 months), the duration of which is set out in the Move-In Request. The period may be modified free of charge once during the semester (1st-7th December) by submitting a Neptun request. Submission of a request does not constitute automatic acceptance.

(10) The contract of students who are placed after the end of the admission procedure (from the waiting list) may only last until the last day of the semester, but they may apply for an extension.

Annex 8

Principles of classifying dormitories by comfort categories

The classification of the individual dormitory places is as follows, based on the agreement between the University and the Student Union:

- a) dormitories where the sanitary units are shared, 3 or more persons are accommodated in one room and the building has not been renovated within 10 years may be classified as category I dormitories;
- b) dormitories where fewer than 3 or more persons are accommodated in one room may be classified as category II dormitories;
- c) dormitories where a complete sanitary unit is available for every two rooms and fewer than 3 persons are accommodated in one room may be classified as category III dormitories;
- d) dormitories where a complete sanitary unit is available for every room or every two rooms and fewer than 3 persons are accommodated in one room and the building was renovated within 10 years may be classified as category IV dormitories.

Financing categories for each comfort level

The monthly amount of the dormitory charge for students participating in a programme funded by the state and for students participating in a doctoral programme funded by the state (HUF/person/month) may not be higher than exceed

Category I	8% of the annual normative funding for dormitory places
Category II	10% of the annual normative funding for dormitory places
Category III	12% of the annual normative funding for dormitory places
Category IV	15% of the annual normative funding for dormitory places
