Application and admission

Quota 4:1

At this programme is only directed to our partners and on exchange basis (quota 4:1) all courses are tuition free. 4 students at LiU Summer Academy = 1 student for a semester exchange. Please note that LiU Summer Academy students will affect the balance of the agreed quota. For information on the current balance, please contact the partner agreement officers.

Entry requirements

To meet the general entry requirements, students must have completed one year of full-time studies upon application, (passed 60 ECTS credits or equivalent) and be nominated by one of LiU's partner universities.

Nominations

Partner universities are welcome to nominate a maximum of five students per course by signing the LiU Summer Academy – nomination certificate 2023 for each nominated student. Nominated students must have a good command of English writing, reading, listening and speaking at a recommended CERF level B2. LiU trusts our partners to nominate students with a good command of English according to the level stated above.

Nomination certificate

Only employees with the title of international coordinator or equivalent can sign the document. Please observe that LiU only accept nomination documents signed for LiU Summer Academy 2023.

Are nominated students guaranteed a place?

LiU aims for a good mix of students. Selection is based on the principle of a multicultural classroom. Please observe that LiU has a limited number of student places per course and that LiU cannot guarantee that all nominated students can be offered a place. Students from partner universities with whom LiU would like to improve the balance between incoming and outgoing student exchanges are prioritised. LiU use the national admissions system, and LiU can't, at this point, guarantee how many of your students will be admitted. If there is a lot of competition for the LiU Summer Academy places, eligible students will be chosen through a lottery draw in the University Admissions system.

LiU activation keys

LiU uses a platform where the students can find information about the courses, have access to the library and chat with teachers and fellow students during their studies. LiU would like to give admitted LiU Summer Academy students access in the beginning of June before students arrive to Linköping.

Unfortunately, by law LiU cannot send the activation keys directly to students abroad. However, LiU is allowed to send them to a contact person at our partner universities, who can monitor the students' registration to the platform. Therefore, the partner university will receive an email in the end of May and be asked if the activation key can be sent directly.

Examples of social activities:

Welcome Dinner (approximately 450 SEK).

If students choose to go directly to the registration building at Campus Valla (Studenthuset) or arrive at another time than mentioned above, students must get to Studenthuset by themselves. If students arrive outside opening hours, students are expected to arrange their own accommodation until they can come and pick up the key for the accommodation.

Students must send an email to summeracademy@liu.se if they are delayed and think they will arrive outside of opening hours (12:00-20:00) on the arrival day or if they plan to arrive during the weekend. The key hand-out is not possible after office hours.

Visa, insurance, and Covid-19

LiU is unable to assist students in this process, and we advise students to contact the nearest [Swedish Embassy or Consulate](#) for more information.

If students require a letter of intent or invitation issued by LiU, the student should contact summeracademy@liu.se. To speed up the process the students must include information such as home address, course, and university in the email. The documents are issued and sent by air mail on Tuesday to Thursday.

Visa requirements

Some students must apply for an entry visa before arriving in Sweden (for studies less than three months). You can find a list of which countries citizens need to apply for an entry visa on the Swedish Migration Agency's website. Please note, students who apply to the LiU Summer Academy are not affected by the Swedish Migration Agency's extended passport control as the students are studying in Sweden less than 90 days.

Insurance EU-citizens

To receive health care, students must obtain a European Health Insurance Card from their home country. Students must bring the card with them when seeking medical attention in Sweden to show that they are covered by a health insurance, otherwise the students will have to cover the costs themselves.

All LiU Summer Academy students also have an insurance policy with the official government agency Kammarkollegiet.

Insurance non-EU citizens

All LiU Summer Academy students also have an insurance policy with the official government agency Kammarkollegiet. The insurance covers students during direct travel to Sweden, in Sweden and during direct travel from Sweden to their home country. It is recommended that students read the terms and conditions and make sure the insurance cover is sufficient, especially for travel and health care. If not, students must, before leaving for Sweden, organise the right insurance cover for the time residing here.

Students should contact an insurance company/social insurance office for any questions about supplementary insurance.
