

# Report on the 5<sup>th</sup> CIAS International Workshop

The 5<sup>th</sup> CIAS International Workshop took place at the Faculty Club on the 11<sup>th</sup> of May 2022. This was the biggest workshop so far organised by CIAS: 12 research fellows and four representatives of our research centres and projects had the opportunity to show their latest results.

We had the honour that the rector, Dr. Előd Takáts opened the workshop. He said that at time of change, knowledge and exchanging ideas about society and economy is even more important, and CIAS is at the forefront of the transformation from a dominantly teaching university to a more research-based teaching university.

Three of the four sections were dedicated for the research fellows of academic year 2021/22/2. Three junior, five senior, one invited distinguished research fellow and three more research fellows held their presentations. To have a detailed overview of the presenters and topics, please check the schedule below.

It was a great opportunity to have an innovative discussion, widen scientific knowledge and develop research agenda. As a positive outcome, anybody could get a better understanding of the wide research portfolio of CIAS research fellows.

Section I. Presentations by CIAS research fellows I. Chair: Zoltán Oszkár Szántó, dean of CIAS	
9.00 – 9.15	Marcelo Royo Vela (invited distinguished research fellow) <i>Emotional response to heritage and effects on the cultural tourism destination image: 2D to a 3D construct</i>
