Notes:
 Passau and Corvinus courses in the same row are considered equivalent. The student is free to choose whether to complete a course in Passau (1st year) or at Corvinus (2nd year).
 Credit numbers without brackets indicate the default curriculum schedule. Credit numbers in brackets indicate alternative semesters for the completion of the subject.
 A total of 120 ECTS are required. Of these, at least 45 ECTS must be completed at Corvinus.
 The ECTS value of the course is the credit assigned by the university where the student has completed the subject, except for the "Masterarbeit" (to be completed in Passau), which is valued at 15 ECTS.
 * Calculation of elective credit requirements = 120 ECTS – ECTS of compulsory courses – ECTS of all compulsory electives – 15 ECTS of master thesis. A minimum of 6 ECTS electives is offered by Corvinus.
 Credits from the above courses (C, CE) that exceed the minimum ECTS requirement are counted as elective. An elective Physical education course is available at Corvinus.
