Person responsible for the major: Dr. Lilla Vicsek, Associate Professor,

Place of the training: Budapest

Training schedule: full-time

Language of the training: English

Is it offered as dual training: no

Specializations:

1. **Name of specialisation:** Social policy and equal opportunities specialization

Training and outcome requirements:

1. **Title of the Bachelor programme in English:** Sociology
Title of the Bachelor programme in Hungarian: szociológia
2. **The level of qualification attainable in the bachelor's programme, and the title of the certification**
 - qualification level: bachelor (baccalaureus, abbreviation: BA)
 - qualification in Hungarian: szociológia alapszakos szakelődő
 - qualification in English: Sociologist
3. **Training area: social sciences**
4. **Training duration, in semesters:** 6 semesters
5. **The number of credits to be completed for the bachelor's degree: 180 credits**
 - degree orientation: balanced (40-60 percent)
 - thesis credit value: 10 credits
 - minimum credit value of optional courses: 9 credits
6. **International Standard Classification of Education field of education code:** 312/0314
7. **Bachelor's degree training objectives and professional competences**

The goal of the programme is the training of sociologists who, with their attained knowledge of the bases of sociology, can aid the realisation of a knowledge-based information society, improving the quality of life and the terms of equity, the completion of social democracy, and reinforcing social integration. With their attained theoretical bases, they are capable of recognising the most important social issues, their basic structural interrelationships, and they possess practical and methodological bases that are used to discover, analyse, and understand them. They are prepared to continue their training at the master's level.

 - 7.1. **Attained professional competences**
 - 7.1.1. **The sociologist has**
 - a) **knowledge**
 - Knows the major elements of social science theories regarding the sub-systems, structure, layers, social norms and values, social action and interaction, and social processes.
 - Knows and understands interconnections that form the general base of the scientific understanding of society.
 - Knows the most important historical, theoretical, and practical elements of sociology, has an understanding of social interrelationships that is deeper than general thinking.
 - Knows and understands the most important mechanics and normative systems of social phenomena explored by sociology and the connections of social sub-systems.

- Possesses the most important pieces of knowledge regarding the structural, economic, and political processes in society, knows and understands the workings of social structure and cultural reasons that cause social issues.
- Understands the process of sociological research on the level of practical analysis.
- Knows the bases of social research, the most important research methods and basic data analysis methods.
- Knows the most important social science databases and electronic resources for research.
- Knows the most important programmes for social inclusion, integration of disadvantaged people, and social democracy.
- Knows the ethical requirements of social science research.
- Can communicate as well as read and understand professional materials in at least one foreign language.

b) skills

- In everyday professional life, uses the main concepts and the relevant special vocabulary precisely.
- Collects and processes sociologically relevant information, uses modern IT methods at a basic level.
- Handles and uses social science databases and traditional and electronic literary resources.
- Participates in the selection and application of research methods that match the research problem.
- Participates in the preparation and realisation of complex programmes for the reduction of the consequences of inequalities, social integration, the integration of disadvantaged people, and the realisation of social democracy.

c) attitudes

- Is open to social changes, is open to adapt viewpoints that fight prejudices.
- Consistently accepts the diversity of thinking in social science, represents its basic world-view genuinely in his/her immediate and wider communities.
- Is sensitive and open to social issues, with a world-view that is permeated by solidarity for disadvantaged groups, intercultural awareness, and tolerance.
- Is dedicated to decrease social inequalities, democratic values, the rule of law, and the European community of values.
- Is open, yet critical of theoretical, practical, and methodological innovation in sociology.
- Is open to critical self-evaluation and the various forms of professional learning.
- He/she works in a way that is characterised by building and maintaining relationships, solving conflicts, sensitivity for local and global issues and a drive to solve them, empathy, cooperation, helpfulness, and advanced communication skills.
- Continuously improves his/her own theoretical and practical knowledge.
- Accepts and realises a health-conscious attitude and lifestyle.

d) autonomy and responsibilities

- Organises his/her own work with an independence and responsibility that is appropriate for his/her place in the organisational structure.
- Is independent and constructive in forms of cooperation inside and outside the institution.

- Participates actively and responsibly in sociological research or the work of groups created to solve social issues, strives for cooperation with the representatives of other sciences, professions, and institutions and users.
- Represents the consistent realisation and protection of legal, ethical, and professional standards responsibly.
- His/her professional work is characterised by active citizenship, solidarity, participation in public issues, support for equality, and responsibility for social policy issues.
- Observes research ethics and publication norms.

8. Bachelor's degree characteristics

8.1. Professional properties

8.1.1. The scientific fields and areas that the training is based on are:

- introduction to the history and theory of sociology, social history 18-54 credits;
- special sociologies, 18-54 credits;
- introduction to related social science disciplines, 18-54 credits;
- introduction to research methodology (qualitative and quantitative methods, statistics and computer data analysis, field research) 36-90 credits.

8.1.2. The maximum credit value assigned to subjects that belong to the specialisation recommended by the training institution is 30 credits.

9. Degree thesis/ Dissertation

The aim of the degree thesis is to demonstrate the student's knowledge and expertise in a chosen topic, scientific data collection, systematization, analysis and processing related to the chosen topic, discussion of the chosen phenomenon or problem, hypothesis creation, problem solving, analysis of alternative hypotheses, argumentation and in refuting the counter-arguments, in a coherent, consistent, language-oriented written explanation of his thoughts, views, positions, statements.

10. Type of Degree thesis

Research thesis.

11. Requirements for the issue of a final certificate

The University will issue a final certificate to the student who has obtained

- the study and examination regulation prescribed in the curriculum, and
- the required credits.

12. Conditions for admission to the final examination

Joint conditions for admission to the final exam:

- obtaining a final certificate,
- submission of the dissertation by the deadline,
- evaluation of the dissertation with a different grade than the deadline,
- registration for the final exam by the deadline,
- the student has no overdue payment debt to the University for the given training,
- accounted for with assets owned by the University (borrowed books, sports equipment, etc.).

A student who has not fulfilled any of the provisions of the points a)-f) cannot be admitted to the final examination.

13. Parts of the final exam

The final exam consists of the defense of the dissertation and the oral complex exam.

The complex exam topics:

- Classic and Modern Sociological Theories,
- Social Structure and Inequalities,
- Project Work - Interviews,
- Quantitative Research and Data Analysis I-II,
- Project Work - Survey Research.

14. Determining the result of the final exam

The weighted arithmetic mean of the following three digits, rounded to two decimal places:

- a) the grade given to the dissertation by the reviewer (s) - determined with a five-point qualification - in case of several reviewers the average of the marks of the reviews is rounded to two decimal places, and
- b) the grade obtained for the defense of the dissertation, for the answers to the questions related to the dissertation - established with a five-level qualification, and
- c) the grade given for the oral complex examination - determined with a five-grade qualification - with double weight.

15. Components of diploma qualification, method of calculation

The result of the diploma is the arithmetic mean of the following two digits, rounded to two decimal places:

- a) the credit-weighted average of the marks of the compulsory and compulsory elective subjects (if the student has taken more than the compulsory elective subjects, then all the subjects taken) in the amount of credits prescribed in the curriculum, and
- b) the result (grade) of the final examination.

16. Conditions for issuing a diploma

A prerequisite for the award of a diploma certifying the completion of higher education studies is the successful completion of the final examination.

17. Specialization selection rules

There is no rule, because there is one specialisation.

Remarks

Type: C-compulsory courses, CE-core elective courses, E-elective (optional) courses

Methods of assessment: ex-exam (exam at the end of the semester, but other forms of assessment are possible during the semester), pg- grade based on the practical assignments given during the course of the semester, a-signature, ce- Comprehensive examination.

A subject that can be completed in a preferential study order (PSO) on the basis of Section 92 of the Study and Examination Regulation (SER).

Physical education

Physical education is a criterion subject, the condition for obtaining a diploma is the completion of two semesters. The two semesters of physical education can be completed at any time during the program. Students who have fulfilled the criterion can only take the subject in the form of reimbursement for a fee.

Foreign language

During their studies, students can study a foreign language free of charge for two semesters, including a specific language, within the framework of the elective subjects.

Students who have completed two semesters of language subjects may take additional language subjects only upon payment of a specified fee.

Curriculum

It is recommended to include the subjects in the schedule according to the sample curriculum. The student may deviate from this, taking into account:

1. the pre-study order,
2. semester of announcing subjects
3. completion of an average of 30 credits per semester
4. in addition to the compulsory subjects, students may take elective subjects from the offer of elective subjects (see Neptun) as well as foreign languages.
5. a minimum of 2/3 of the required amount of credit must be completed at Corvinus University.

*: Hungarian Language is a compulsory subject for the students participating in the Stipendium Hungaricum scholarship program in the first two semesters.

The detailed rules related to the admission of the subjects and the completion of the subjects are included in the Study and Examination Regulations!

Please note that curriculum changes are possible!
