A Natural Setting: A History of Exploration and Settlement in Yosemite Valley

Since its first discovery by non-indigenous people in the mid-nineteenth century, Yosemite Valley has held a special, even religious, hold on the American conscience because its beauty makes it an incomparable valley and one of the grandest of all special temples of Nature. While Yosemite holds a special grip on the western mind, perceptions about the Valley have evolved over time due to changing politics, migration patterns and environmental concerns as man has become more attuned to his relationship and impact on nature.

A Natural Setting A History of Exploration and Settlement in Yosemite Valley

Since its first discovery by non-indigenous people in the mid-nineteenth century, Yosemite Valley has held a special, even religious, hold on the American conscience because its beauty makes it an incomparable valley and one of the grandest of all special temples of Nature. "Native Americans have lived in the Yosemite region for as long as 8,000 years. The first people that we have record of was a band of Native Americans that called the Valley "Ah-wah-nee" and themselves the Ahwahnechee."¹ While Yosemite holds a special grip on the western mind, perceptions about the Valley have evolved over time due to changing politics, migration patterns and environmental concerns as man has become more attuned to his relationship and impact on nature.

References – Why to use?

- To support your findings, thoughts
- To show respect for the work of others
- It shows how deep is your knowledge in the field
- To provide information so others could locate them

To avoid plagiarism

References – general information

Type of citation

- Verbatim citation: word by word, quotation mark, no longer than 3-5 sentences.
- Paraphrasing: summary of a longer text with your own words

Where to use?

- In-text – add author, year
- Reference list – list all references you have used

Plagiarism

„...taking over the ideas, methods, or written words of another, without acknowledgment and with the intention that they be taken as the work of the deceiver.” - *American Association of University Professors (September/October 1989)*.

„Plagiarism is committed by anyone who uses external sources in his/her work while failing to comply with professional expectations and rules or to use correct references.” - *CUB, [Code of Ethics](#), 2011*

„The University expects from all of its students and teachers to respect the copyright of others. The University forbids the insertion of ideas, research findings and papers by a different author into any piece of scientific writing, claiming them to be the own work.” - CUB’s [Anti-plagiarism regulation](#)

To steal others’ intellectual property and lie about it.

Turnitin - Text similarity checking software

Sources

- own archive: previously uploaded materials by Turnitin users
- online sources
- licensed content: academically published materials

Text similarity checking at CUB

- through Moodle
- cca. one month before thesis submission deadline
- at least one test uploading is guaranteed
- set up by the university, uploaded by students
- [Analysis overview](#) guide for student

BUT: opponent's decision

<https://www.turnitin.com>

Plagiarism, if: paraphrasing and citations together exceed 50% of the paper - even if everything is cited correctly.
