

# CORVINUS INSTITUTE FOR ADVANCED STUDIES – Central Europe in a Global Context

A university-based hub for research excellence  
in the heart of Central Europe, in Budapest, Hungary

**CORVINUS UNIVERSITY OFFERS EXCELLENT EDUCATION AND RESEARCH PROGRAMS IN ECONOMICS, MANAGEMENT, BUSINESS AND SOCIAL SCIENCES. ITS INSTITUTES INVITE STUDENTS TO ATTEND COURSES LEADING TO DEGREES AT THE BACHELOR, MASTER AND DOCTORAL LEVELS, BOTH IN HUNGARIAN AND ENGLISH LANGUAGES**

Corvinus University enjoys the top position in Hungary in all study fields its profile covers.

Every year, the Financial Times business daily publishes its ranking of the world's top 100 management master's programmes, and Corvinus University of Budapest's Master's in Management and Organisation has been shortlisted again this year. Since 2005, when the list was first compiled, the list's compilers have included Hungarian courses almost without interruption. Corvinus is ranked 94th in 2023, up four places from last year.

Corvinus is a member of CEMS and has received different international accreditations:

The leadership of Corvinus University of Budapest decided to establish the Corvinus Institute for Advanced Studies – Central Europe in a Global Context (CIAS) in 2018 with the aims of reaching a higher level research performance at the university and improving significantly its international potential.

It provides research fellowship grant opportunities to scholars with outstanding credentials in the following grant categories:

- ▶ invited distinguished research fellow,
- ▶ senior research fellow,
- ▶ junior research fellow,
- ▶ non-resident research fellow.

The fundamental goal is to create an inspiring and creative academic community, which contributes to CIAS' own intellectual profile in harmony with the strategic goals of Corvinus, Budapest, Hungary and Central Europe.

The application process is managed by CIAS. Grants are made for citizens of any country for a variety of research and educational activities (primarily advanced research, related PhD-level lecturing and mentoring). Most grants are awarded for a period of one or two semesters (5 or 10 months) and in special circumstances they may be extended for limited periods.

**CIAS HAS BEEN ESTABLISHED CLOSELY RELATED TO RESEARCH TOPICS OF THE FOUR DOCTORAL SCHOOLS OF THE UNIVERSITY:**

- ▶ Doctoral School of Business and Management,
- ▶ Doctoral School of Economics, Business and Informatics,
- ▶ Doctoral School of Sociology and Communication Science,
- ▶ Doctoral School of International Relations and Political Science.

These are the key areas of the research activities of Corvinus University. The fellows will be hosted by the Corvinus Institute for Advanced Studies in collaboration with an adequate institute or research team of the University.
