

# Internship information for the 2023/24/2 spring semester and summer

## INTERNATIONAL STUDIES BACHELOR-LEVEL STUDY PROGRAMME

### 1. The mandatory internship

The practice period is a student activity, defined jointly by the University and the workplace, to be performed partly independently at a workplace outside or within the higher education institution during the completion of a bachelor or master programme - planned, organised and assessed in accordance with the curriculum of the study programme, as specified in the programme and outcome requirements. Study programmes including out-of-university, external internship shall be any study programme whose programme and outcome requirements contain a internship period of at least six (6) weeks. Internship periods are not only prescribed in study programmes including external internship, but in other study programmes as well. In this case the internship period is shorter than six (6) weeks.

If an internship period is compulsory during the completion of the study programme, the internship period shall be completed as a curriculum requirement for acquiring the absolutorium. (Study and Examination Regulations 58.§ (1)-(2))

### 2. Purpose of the internship

The purpose of the practice period is to deepen and further develop the knowledge and skills acquired at the University in a genuine working environment, to develop the professional skills of students participating in bachelor and master programmes and to increase their appeal to the labour market (Study and Examination Regulations Appendix Nr. 2 1 § (1)) to experience the professional work of the host institution (international organisation, NGO, company, public institution etc.) relevant to their studies or specialisation, to become involved in the day-to-day work, to carry out independently the tasks assigned to them by their supervisor and to gain experience for future employment.

The internship is an opportunity to develop the following general and professional competences required by the job market:

- a) “independent problem-solving competences [...] developing decision-making.” (Study and Examination Regulations Appendix Nr. 2 1 § (1))
- b) to work precisely and on deadlines, either independently or in a team, depending on the nature of the tasks;
- c) the ability to communicate fluently in written and oral form in the chosen foreign language, in accordance with the terminology of the profession;
- d) knowledge and use of international economic, business, legal, political and social concepts, terminology, theories and relevant methods.

The prerequisite for the acceptance of the internship is the existence of the competences that can be acquired and/or developed during the internship and the Bachelor's (BA) studies, and

their verification by the work place (this is done by filling out the "Evaluation form" document).

**Important:**

- 1. The internship must be **continuous**, i.e. it cannot be completed in several shorter periods** (*sick leave, holidays do not count as interruptions, but the number of hours of compulsory work must fit into the internship period. You should plan a few extra days for this when you determine the start and end dates of the internship with the company*).
- 2. You have to complete the internship at one company/institution, can't switch to another during the internship.**
- 3. Cannot be completed in a passive semester or in the summer period following or preceding a passive semester.**
4. For internships of less than 6 weeks, it is possible to have previous work experience gained during your studies accepted as compulsory internship (for more information see section 11.).

### **3. How many hours do you need to complete and when can you start the internship?**

Bachelor -level study programme	Length of continuous practice period	Scheduling of practice period during the programme
International Studies study programme	120 hours (at least 4 weeks)	6th semester, but may be completed after completing the 2nd semester

### **4. Deadlines**

“The student shall file a request in the Neptun system for the authorisation of the compulsory practice period within thirty (30) days of the end of the semester preceding the practice period.” (Study and Examination Regulations, Annex 2)

### If you have not found a internship by the deadline:

You still have to submit your Neptun application by the above date, in which case your application process will take place in two rounds:

1. in the request, select the option that you do not have an internship place yet (you will then need to enter the start and end dates of your internship, which you will have the opportunity to change later), and then submit the request.
2. Once submitted, the request will be sent back to you for correction and you must resubmit it via Neptun, with the details of the internship now filled out ("corrected"), **no later than 15 days before the start of the internship**. If you do not correct your application, it will be automatically rejected at the end of the internship period.

You will be able to start your internship if both steps are completed within the relevant deadlines.

## 5. How to choose a company?

- a. You find an internship place on your own.
- b. Browse the career opportunities on the Corvinus website: <https://www.uni-corvinus.hu/main-page/life-at-corvinus/jobs-for-students/?lang=en>

Any organisation or institution which has an international or multicultural environment, either in Hungary or abroad, and which agrees in writing to host the student for an internship ("**Submission form**") and to provide a brief evaluation of its activities at the end of the internship ("**Evaluation form**") is considered as a suitable external internship workplace. Host institutions may carry out their activities in any of the following areas:

- the public sector (e.g. the Ministry of Foreign Affairs [Ministry of Foreign Affairs and Trade in Hungary]; the departments of public institutions responsible for international and European relations); embassies and consulates in Hungary and abroad;
- foreign or local representations of intergovernmental and non-governmental international organisations;
- the business sector (e.g. multinational companies, TNCs; local companies with international and/or regional links);
- a professionally recognised journal (print, electronic) focusing on reporting and journalism on international politics;
- non-profit sector, NGOs (which raise awareness of cross-border global or regional issues such as the environment, human rights, humanitarian issues, international development, etc.);
- academic, research (internships in research institutes are recommended for those who consider a future in higher education or the academic sector);
- the Corvinus University of Budapest's own departments (e.g. units dealing with international relations, international applications).

The chosen internship organisation may ask for certificates with different professional content and legal status from the student applying for the internship. The most common ones and the difference between them:

- A “**Letter of Institutional Support**” issued by the Department of International Relations, responsible for International Studies, will provide information about the programme the student is studying and can help the student to find a location for the internship. The letter of support can be requested by e-mail, including the following information:
  - name, Neptun code
  - programme, year
  - internship place (and name and position of the responsible supervisor)
- A classic, personalised "Letter of Recommendation" should be requested from a teacher who knows enough about the student's academic knowledge, professional competences, personality, future career plans - and the chosen internship place - to be able to verify the student's suitability for the internship by signing it.
- A document called " Certificate of enrolment", which serves various purposes and certifies the student's enrolment and status, can be requested from the academic administrators via the Do it online! interface.

The Institutional Support Letter can be requested during the reception hours of the teacher responsible for the internship during the semester, and can be requested by e-mail outside the semester.

You can check the office hours of the lecturer in the MyCorvinus app. Office hours of the lecturer are not valid during the exam period and the summer holiday. In case of questions, please contact the lecturer via e-mail or Teams.

All students are kindly requested to ensure that they allow sufficient time for the administration.

**Important:**

**“The student cannot be his/her own employer (own business) and the internship company cannot be majority owned by a close relative of the student. The internship supervisor at the company cannot be a close relative of the student, nor a person who cannot be expected to make an objective assessment of the internship.”** (Study and Examination Regulations Appendix Nr. 2 3§ (4))

Workplaces in this case also must meet the requirements for the internship (see point 5).

## 6. What's the next step?

1. *Contact the company of your choice.*
2. *Submit the “Application for authorisation of a compulsory internship of less than 6 weeks” Neptun request within the deadlines.*

## 7. What documents do you need to submit before the internship?

Neptun request (required in all cases!)

Name of the request: **“Application for authorisation of a compulsory internship of less than 6 weeks”**

In your request, you ask for approval of your chosen internship company, the job and tasks. Approval is not automatic (if in doubt, consult with the teacher responsible for the internship).

By approving the request, the teacher who is responsible for the internship authorises the internship and the position. The internship may start after this authorisation.

If the application is rejected, you should contact the teacher who is responsible for the internship.

### If you have not found a internship by the deadline:

You still have to submit your Neptun application by the above date, in which case your application process will take place in two rounds:

2. Once submitted, the request will be sent back to you for correction and you must resubmit it via Neptun, with the details of the internship now filled out ("corrected"), **no later than 15 days before the start of the internship**. If you do not correct your application, it will be automatically rejected at the end of the internship period.

You will be able to start your internship if both steps are completed within the relevant deadlines.
