

International Relations Bachelor's program

training program

For students who start in the fall semester of 2024/2025

International Relations Bachelor's program

<u>Valid:</u> For students starting their studies in the 2024/2025/1 semester General Informations:

Person responsible for the major: dr. Zoltán Gálik, associate professor

Place of the training: Budapest Training schedule: full-time Language of the training: English Is it offered as dual training: no

Specialization:

1. Name of specialisation: European Integration specialisation

Training and outcome requirements:

Title of the Bachelor's programme in English: International Relations
 Title of the Bachelor's programme in Hungarian: nemzetközi tanulmányok

2. The level of qualification attainable in the bachelor's programme, and the title of the certification

qualification level: bachelor (baccalaureus, abbreviation: BA) qualification in Hungarian: nemzetközi kapcsolatok szakértő qualification in English: International Relations Expert

3. Training area: social sciences

4. Training duration, in semesters: 6 semesters

5. The number of credits to be completed for the Bachelor's degree: 180 credits

degree orientation: balanced (40-60 percent)

thesis credit value: 10 credits

minimum credit value of optional courses: 10 credits

6. International Standard Classification of Education field of education code: 313/0312

7. Bachelor's degree training objectives and professional competences

The objective of the international relations undergraduate programme is the training of intellectuals who are capable of navigating the world of international relations, of appropriately representing national and regional interests, sensitive to global issues, capable of handling the challenges of the European integration process, and open to learning about other cultures who can work in Hungarian or international corporate, governmental, and non-governmental organisations in international communications, creative problem-handling, and the flexible solution of complex tasks, and are prepared to continue their training at the Master's level.

1. Attained professional competences

1. The International Relations Expert has

a. knowledge

Is knowledgeable regarding the generally accepted tendencies, characteristics and data of Hungarian and international political, economic, and cultural phenomena.

Interprets the field's international, European, and regional political, legal, economic, and civilisational knowledge and events in their context.

Is knowledgeable regarding the current research questions and analytic and interpretive methods of social sciences.

Knows the basic terms and the important concepts of the various fields of the profession and understands interrelationships.

Knows the ways, tools, and techniques of international communications.

Knows the operations, scopes, and policies of the European Union Institutions.

b. skills

Is capable of learning and systemising information independently in historical, social, economic, legal, and political issues.

Reads the literature, especially the technical terminology, in at least two foreign languages.

Is capable of navigating international contexts, of following, understanding, and processing processes and changes, its efficient and successful sharing and practical use.

Is capable of interpreting international relations from the viewpoint of at least one non-European culture.

Is capable of project-based work, has the ability to share work and cooperate, recognises individual contributions to shared successes.

Is capable of performing written analyses independently and of presenting completed tasks in written or oral form to a professional audience.

Is capable and able to perform tasks related to appearance in international cooperation in small and medium enterprises, and of performing tasks from international cooperations in the multinational and corporate sectors.

Is capable of performing tasks related to the planning and execution of EU-supported projects.

Is capable of performing tasks of the international, European, and regional cooperations in the private sector, at non-governmental organisations, at local governments and government organisations, and at state institutions.

c. attitudes

Understands and accepts that economic, political, and cultural phenomena are historically and socially determined and changeable.

Represents the religious and social, historical and present-day diversity of the Hungarian and the European identities.

Desires to take in European national cultures and to learn about non-European cultures.

Evaluates a comprehensive methodological approach to problems.

Attempts to continuously learn about political science, law, social sciences, international economy, and history.

Develops a quality of critical information analysis and processing.

Is open to all forms of professional innovation, is accepting yet critical of theoretical, practical, and methodological innovation.

Strives to develop a professional calling and to further his/her training.

Accepts and realises a health-conscious attitude and lifestyle.

d. autonomy and responsibilities

Takes responsibility for his/her professional publications in any language, is aware of their possible consequences.

Uses the knowledge attained in his/her field in self-education and self-awareness.

Consciously represent methods used in the field and accepts the methodological diversity of other scientific fields.

Cooperates efficiently with the Hungarian and international scientific communities of the field.

Answering professional questions, solving problems independently or in cooperation with others, taking responsibility independently, and maintaining the ethical norms of the profession.

Is independent, constructive, and assertive in forms of cooperation inside and outside the institution.

Performs complex tasks according to the workplace's professional standards.

Knows the ethical norms and rules of his/her field, and is capable of maintaining them while performing professional tasks, in personal relationships, and in communication.

Constantly develops his/her writing skills in relation to his/her tasks.

8. Bachelor's degree characteristics

1. Professional properties

1. The scientific fields and areas that the training is based on are:

general social science knowledge and competences [Economics, Introduction to Law, Philosophy, Political Science, Sociology, History (Modern Hungarian and World History) Informatics] 20-60 credits;

methodological and skills development knowledge (Statistics, Social Statistics, Qualitative and Quantitative Methodology, Terminology Exercises) 20-30 credits;

professional skills related to international relations: 50-100 credits, including the credit value of the thesis, as per the following:

the history of international relations [The History of International Relationships from 1815 to 1989, The History of Hungarian Foreign Policy, The History of Diplomacy, International Relations in the New World Order (from 1989)] 5-40 credits;

the theory and practice of international politics (The Main Schools of International Political Theory, The Theory and Practice of Diplomacy) 5-40 credits;

international law (International Public Law, International Civil Law, International Treaties, International Institutions and Organisations) 5-40 credits:

international economics (International Economics, Foreign Economic Policy, International Finance, World Economy, International Business Economics) 5-40 credits:

regional-civilisational studies (History of Civilization, History of European Civilization, Regional Studies) 5-40 credits;

the European Union (The Developmental History of the European Union, EU Institutions and Decision-making, EU Law, EU Jurisdictions and Policies, Hungary in the European Union, European Union Tender Writing and Project Management) 5-40 credits;

the practice of international relations (Techniques of International Communication, International Events, Diplomatic Protocol, Negotiation Techniques) 5-40 credits.

2. Specialisation recommended by the educational institution constitutes theoretical and practical knowledge that is capable of working on the given field, improves personal abilities, and results in specialised competences relevant to individual interests. In the entirety of the programme, tradespecific knowledge accounts for 30-35 credits.

2. Specific features that distinguish the training

In order to obtain the qualification in the initial training, an intermediate level (level B2) of foreign language proficiency in at least two foreign languages is required, one of which is the level of foreign language proficiency in the specialised field.

3. Internship requirements

The internship is an at least four week long, contiguous internship as defined in the programme syllabus. Defined in the Study and Examination Regulations.

9. Degree thesis/ Dissertation

The aim of the degree thesis is to demonstrate the student's knowledge and expertise in a chosen topic, scientific data collection, systematization, analysis and processing related to the chosen topic, discussion of the chosen phenomenon or problem, hypothesis creation, problem solving, analysis of alternative hypotheses, argumentation and in refuting the counter-arguments, in a coherent, consistent, language-oriented written explanation of his thoughts, views, positions, statements.

10. Type of Degree thesis

Research thesis.

${\bf 11.}\ For eign \ language \ competence \ in \ a \ specialised \ language \ other \ than \ English:$

The acquisition of foreign language competence in a specialised language other than the language of training may be achieved by completeing the "foreign language competence I." course of a o credit value and a signed, non-contact-hour criterion course. This subject is included in the penultimate semester of the degree programme, but is recommended to be taken in the bachelor program from the 5th semester onwards.

Expected level: An accredited complex exam - assessing writing, reading, listening and speaking skills - in a modern foreign language for specific purposes at CEFR B2 level or above (in the field of the relevant university programme)."

12. Requirements for the issue of a final certificate

The University will issue a final certificate to the student who has obtained the study and examination regulation prescribed in the curriculum, and the required internship (professional experience),

the required credits.

13. Conditions for admission to the final examination

Joint conditions for admission to the final exam:

- a. obtaining a final certificate,
- b. submission of the dissertation by the deadline,
- c. evaluation of the dissertation with a different grade than the deadline,
- d. registration for the final exam by the deadline,
- e. the student has no overdue payment debt to the University for the given training,
- f. accounted for with assets owned by the University (borrowed books, sports equipment, etc.).

A student who has not fulfilled any of the provisions of the points a)-f) cannot be admitted to the final examination.

14. Parts of the final exam

The final exam consists of the defense of the dissertation and the oral complex exam.

Subjects of the complex examination:

International Relations from 1815 to 1945

History of International Relations from 1945

International Economics

International Law I-II

Introduction to International Relations

Security Studies

International Organisations

History of Civilizations

Regional Studies

15. Determining the result of the final exam

The weighted arithmetic mean of the following three digits, rounded to two decimal places:

- a. The grade given to the dissertation by the reviewer (s) determined with a five-point qualification in case of several reviewers the average of the marks of the reviews is rounded to two decimal places, and
- b. the grade obtained for the defense of the dissertation, the answer to the questions related to the dissertation established with a five-level qualification
- c. the grade given for the oral complex examination determined with a five-grade qualification with double weight. The arithmetic mean of the following three digits, rounded to two decimal places:

16. Components of diploma qualification, method of calculation

The result of the diploma is the arithmetic mean of the following two digits, rounded to two decimal places:

d. the credit-weighted average of the marks of the compulsory and compulsory elective subjects (if the student has taken more than the compulsory elective subjects, then all the subjects taken) in the amount of credits prescribed in the curriculum, and

e. the result (grade) of the final examination.

17. Conditions for issuing a diploma

A prerequisite for the award of a diploma certifying the completion of higher education is a successful final examination.

17. Specialization selection rules

Ranking: based on academic average.

A subject that can be completed in a preferential study schedule (PSS) on the basis of Section 92 of the Study and Examination Regulation (SER)

Physical education

Physical education is a criterion subject. The condition for obtaining a diploma is the completed of two semesters can be completed at any time during the programme. Students who have completed the mandatory two semesters can only take further semesters of the subject for a fee

Foreign language

Curriculum

During their studies, students can study an additional foreign language free of charge for two semesters, within the framework of the elective subjects. Students who have completed these two semesters of language subjects may take additional language courses only upon payment of a specified fee.

- It is recommended to include the subjects in the schedule according to the sample curriculum. The student may deviate from this, taking into account:
- 1. the prerequisites of the subject
- 2. semester of announcing subjects
- 3. completion of an average of 30 credits per semester
- 4. In addition to the core, students should take elective subjects from a wide variety available on Neptun, and may take foreign languages as well.
- 5. A minimum of 2/3 of the required amount of credits must be completed at Corvinus University.
- * Hungarian Language is a compulsory subject for students participating in the Stipendium Hungaricum scholarship programme in the first two semesters.

1 At least 4 continuous uninterrupted weeks.

Detailed rules regarding the enrolment into and completion of subjects are included in the Study and Examination Regulations.

Please note that the curriculum may be subject to changes
