

Kutatásfinanszírozás a Funding Institutional adatbázis segítségével

Zsófia Büttel

z.buttel@elsevier.com

April, 2024

A Funding Institutional egy **kiterjedt kutatásfinanszírozási adatbázis**, amelynek célja, hogy segítse a kutatókat és az intézményeket a releváns **finanszírozási lehetőségek felkutatásában** és betekintést nyerhessenek a kutatási versenyszférába.

Keresés

Új finanszírozási források azonosítása kulcsszavas vagy szűrő keresésekkel a támogathatóság, a karrier szakasza és a földrajzi elhelyezkedés alapján.

Finanszírozási adatok

A megítélt támogatások, a finanszírozók és lehetőségeik adatainak kombinálásával betekintést nyerhet a finanszírozási versenyszférába.

Döntéshozatal

A sikerráta növelése releváns finanszírozási adatok felhasználásával, a leginkább versenyképes kutatók és együttműködők azonosítása révén

Tartalom

- Funding Institutional tények és funkciók
- Keresés
- Együttműködések és versenyszféra
- Irányadó kutatási területek szerinti keresés
- Intezményi Adminisztrátor szerepkör

Funding Institutional

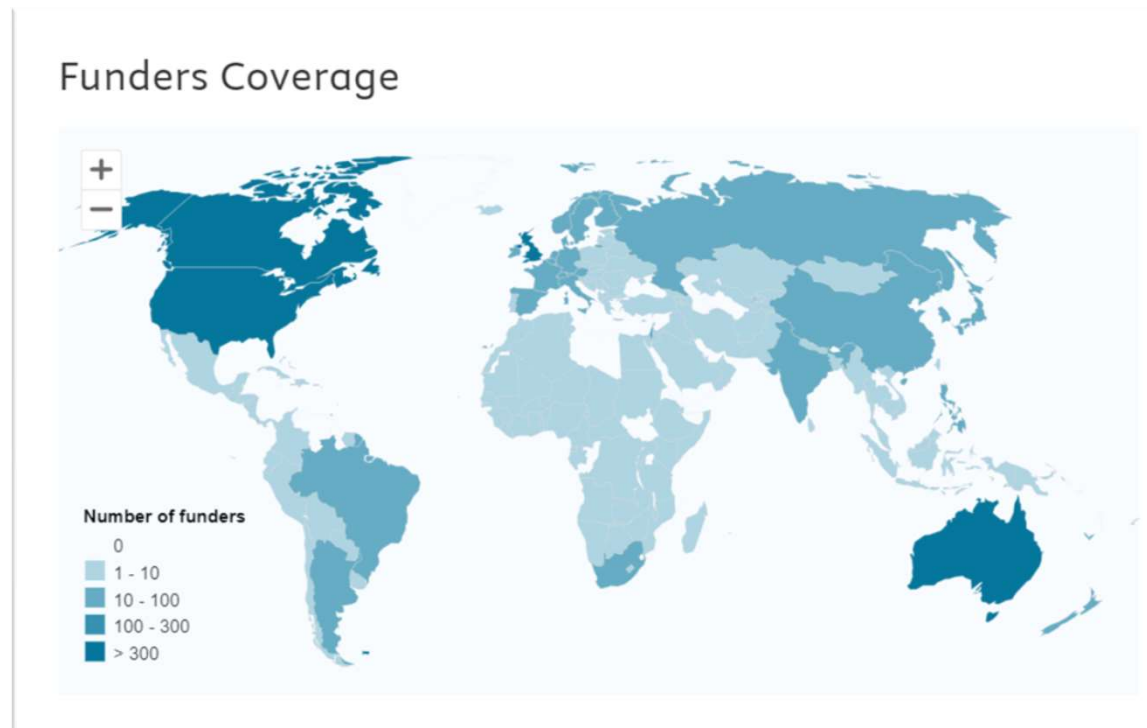

Facts & Features

Kutatók es intézmények támogatása

Funding Institutional adatbázis tartalmaz:

- Több mint **40 000** aktív és visszatérő finanszírozási lehetőséget
- **8 millió** odaítélt támogatást összekapcsolva Scopus Author profilokkal es publikációkkal
- Több mint **15 000** finanszírozótól világszerte

Funding Institutional Kutatóknak:

- A finanszírozás hatékonyabb felfedezése egy **egyszerű keresési élményen keresztül**
- A keresési találatokhoz **hasonló lehetőségek** feljanlása
- **Finanszírozási lehetőségek ajánlása 19M+ Scopus Author Profile alapján**
- Ingyenes e-forrásunk, a **Researcher Academy** integrálása, hogy tippeket és trükköket találjon több támogatás elnyeréséhez.
- Az ASJC kutatási tudományágak hozzárendelése a lehetőségekhez, díjakhoz és a **finanszírozási adatok rendezése** az olyan **irányadó kutatási területek szerint**, mint a mesterséges intelligencia, a COVID, SDGk stb.

Funding Institutional Pályázati Irodáknak:

Átfogó finanszírozási tájékoztatás a **megnyerhető finanszírozási lehetőségek** felfedezéséhez

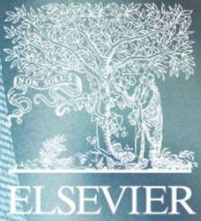

A finanszírozás felkutatásának egyszerűsítése **mentett keresésekkel, értesítésekkel és intelligens ajánlásokkal**

Intézményen belüli, nemzeti és nemzetközi finanszírozás egy helyen, hatékony kommunikáció a kutatókkal

A finanszírozáskeresési folyamatok integrálása a támogatás odaítélése előtti és utáni munkafolyamatokba

Funding Institutional

Start page highlights and navigation

Search the Funding Opportunity, Awarded Grants and Funders databases

The screenshot shows the 'Funding Institutional' website. At the top, there is a navigation bar with links for 'Home', 'Search', 'Suggestions', 'My funding', and 'Editors'. A search icon and a 'ZB' logo are also present. Below the navigation bar is a large search box titled 'Search opportunities' with a 'Search' button. The search box contains the text 'Use AND, OR and NOT to combine keywords' and an example 'e.g. (civil OR soci*) AND technology'. Below the search box are three radio buttons: 'Funding Opportunities' (selected), 'Awarded Grants', and 'Funders'. Below the search box are two main content areas. The first is 'Quick Guide' with a sub-header 'Get a quick overview of Funding Institutional, how you can use it and how it can help you.' and three links: 'Support center', 'Quick Start Guide', and 'User manual'. The second is 'Researcher Academy' with a sub-header 'View more >' and two featured articles: 'How to secure funding - ECR edition' (1.5h) and 'Funding Hacks for Researchers' (1h). The 'How to secure funding' article has a sub-header 'The first step to funding your research or getting the dream fellowship is writing the perfect application.' The 'Funding Hacks for Researchers' article has a sub-header 'Top tips from the people who really understand what it takes to write a successful grant application.'

Tips and tricks for researchers on how to get funded, and other useful resources on various steps of the research lifecycle

Funding

Applying for a research grant can be a long and painful process and there are no guarantees it will end in success. The useful tips shared in our funding modules could prove just the boost you need to secure financial support.

You will learn how (and why) you should critically assess your research idea. We then walk you through points to consider when locating the right funding opportunity to match it. You will hear about some of the common mistakes researchers make when filling in their applications and how your network can help. And, we explain the power of metrics (particularly altmetrics) in helping funders picture your future potential.

Get Started >

Get published faster

Make sure your article is written in correct English before submission. Articles that get English edited are published in a peer-reviewed journal.

Tips for writing grant applications: a funder perspective

In this webinar recording, Annalisa Montesanti will offer an insight into what funders look for when reading grant applications.

How to secure funding - ECR edition

The first step to funding your research or getting the dream fellowship is writing the perfect application.

Funding Hacks for Researchers

Top tips from the people who really understand what it takes to write a successful grant application.

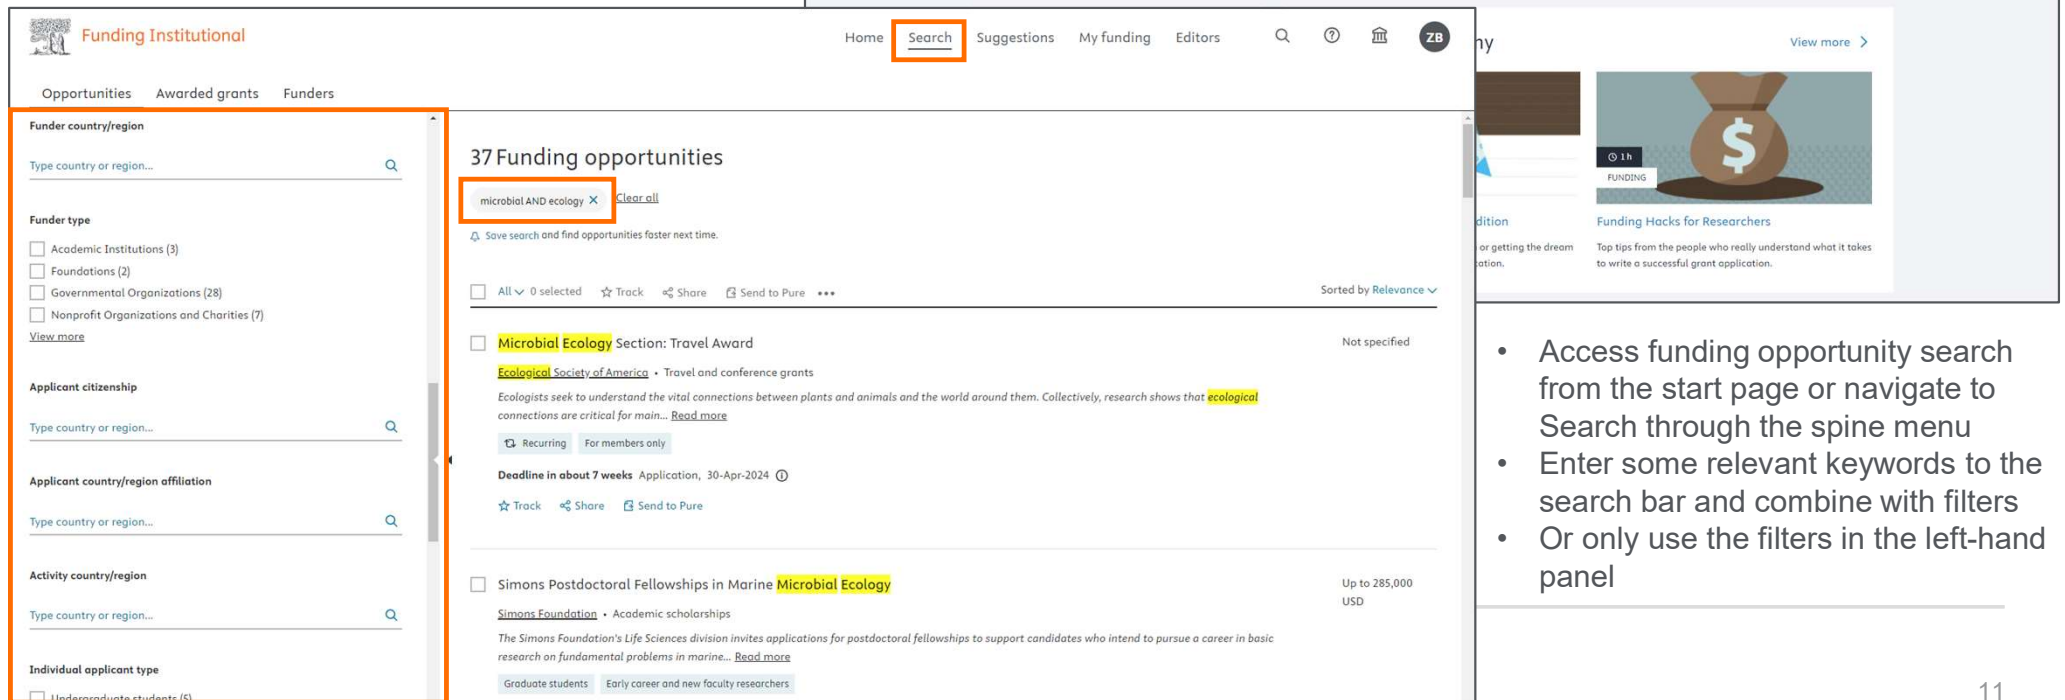

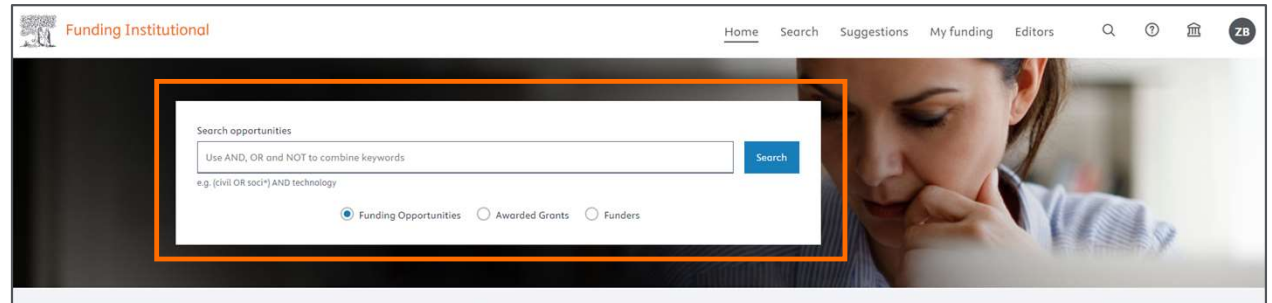

Successful research grant applications – getting it right

Our useful step by step guide to preparing a grant application can help you tick all the boxes first time.

Search for Funding

- Keyword search
- Faceted search (filters)

- Access funding opportunity search from the start page or navigate to Search through the spine menu
- Enter some relevant keywords to the search bar and combine with filters
- Or only use the filters in the left-hand panel

Example Search

- Build queries
 - Dementia
 - Dementia OR Alzheimer

This screenshot shows a search interface with three tabs: Opportunities, Awarded grants, and Funders. The search bar contains 'dementia' and a search icon. Below the search bar, there is a link for 'Advanced search' and a 'Saved searches' section with 'MSCA Horizon' listed. The main content area displays '275 Funding opportunities' with a search filter 'dementia' and a 'Clear all' button. A notification says 'Save search and find opportunities faster next time.' Below this, there are controls for 'All 0 selected', 'Track', 'Share', and 'Send'. A search result is visible: 'Dementia Consortium Grant' by 'Dementia Consortium', described as a 'Travel and conference grant'. A snippet of the description reads: 'What is the Dementia Consortium? The Dementia Consortium is a pre-competitive collaborative model that bridges the gap between university research and drug development.'

This screenshot shows the same search interface but with the search query changed to 'dementia OR alzheimer'. The main content area now displays '347 Funding opportunities'. The search filter is 'dementia OR alzheimer' with a 'Clear all' button. The notification and controls are the same. The search result 'Dementia Consortium Grant' is still visible, with a snippet that reads: 'What is the Dementia Consortium? The Dementia Consortium is a pre-competitive collaborative model that bridges the gap between university research and drug development.'

Opportunity details | **Similar Opportunities** | **Should I apply?**

Overview	Participating funders	Alzheimer's Association
Description	Amount	Up to 1,000,000 USD with total funding of 5,000,000 USD
Eligibility	Applicant type	Mid-career and experienced researchers, Early career and new faculty researchers
Announcement	Subject areas	Medicine / Neurology (clinical); Neuroscience / Neurology; Social Sciences / Health (social science);
	Original source	View on announcement page >

Deadline ongoing. Contact the funder for more information.

- Click the title for the Opportunity detail page
- Link to original announcement / funder site for more details and application
- Find 'Similar Opportunities' based on subject, concepts, related funders etc. and competitive intel on which institutions have been successful with the funder through 'Should I apply?'

Search Tip: “” vs. AND

This screenshot shows the search results for the query "antimicrobial resistance". The search bar at the top left contains the text "antimicrobial resistance" and is highlighted with an orange box. The main content area displays "49 Funding opportunities". A sidebar on the left shows a list of saved searches: "Material sci", "MSCA Horizon", "Gut Microbiome", and "Manage saved searches". The top navigation bar includes "Home", "Search", "Suggestions", "My funding", and "Editors".

This screenshot shows the search results for the query "antimicrobial AND resistance". The search bar at the top left contains the text "antimicrobial AND resistance" and is highlighted with an orange box. The main content area displays "61 Funding opportunities". A sidebar on the left shows a list of saved searches: "Material sci", "MSCA Horizon", "Gut Microbiome", and "Manage saved searches". The top navigation bar includes "Home", "Search", "Suggestions", "My funding", and "Editors". Below the search bar, there are filters for "All" and "Antimicrobial Resistance" (highlighted in yellow). The results list includes an entry for "Antimicrobial Resistance" (highlighted in yellow) with a funding amount of "Up to 200,000 GBP" and a description from the British Academy.

Search rules

- The basic search includes Boolean Operators **in capital letters**: AND, OR and NOT and (round brackets).
- The wildcard * finds multiple words entering a few characters.
- Using the singular form of a word in your search finds both the singular and plural forms for most words. For example, heart attack finds results listing heart attack and heart attacks.
- To find documents where your search terms appear together, enclose your phrase in double quotes. For example, “stem cell” returns documents with both stem and cell. Without double quotes, stem cell returns documents with the words either stem or cell or stem and cell throughout the document and not necessarily together.

Funding suggestions based on publications

The screenshot shows the 'Funding Institutional' website interface. The top navigation bar includes 'Home', 'Search', 'Suggestions' (highlighted with an orange box), 'My funding', 'Editors', a search icon, a help icon, a building icon, and a 'ZB' logo. On the left sidebar, there is a '+ Add new researcher' button (highlighted with an orange box) and a list of researchers: 'Büttel, Zsófia', 'Jurburg, Stephanie D.', and 'Siepmann, Dennis'. The main content area is titled 'Suggestions for Büttel, Zsófia' and includes a link 'On Scopus'. Below the title, it lists 'Activity locations' as 'Portugal, The Netherlands' and 'Affiliation country' as 'Portugal, The Netherlands'. There are two action buttons: 'Edit researcher profile' and 'Delete this researcher'. A selection bar shows '0 selected' and icons for 'Track', 'Share', 'Send to Pure', and a menu icon. A single suggestion is listed with a checkbox: 'Resource Efficiency of PV in Production, Use and Disposal: HORIZON-CSA HORIZON Coordination and Support Actions'. To the right of this suggestion, it says 'Total funding 3,000,000 EUR'. Below the title, it lists 'HORIZON EUROPE Climate, Energy and Mobility' and 'Program and center grants'. The 'Topic description' is: 'ExpectedOutcome: Photovoltaic power generation is pivotal in the transition to a clean energy system and the achievement of a climate-neutral economy. To this end, it is important... Read more'. The 'Submission opens on' date is '17-Sep-2024'. At the bottom of the suggestion, there are icons for 'Track', 'Share', 'Send to Pure', and 'Remove this suggestion'.

Find collaborators and assess competitive landscape

- Search Awarded Grants

The screenshot displays the 'Funding Institutional' website interface. At the top, navigation links include 'Home', 'Search', 'Suggestions', 'My funding', and 'Editors'. The 'Search' link is highlighted with an orange box. Below the navigation, tabs for 'Opportunities', 'Awarded grants', and 'Funders' are visible, with 'Awarded grants' selected. A search bar contains the query 'gut AND microbiome' and is also highlighted with an orange box. Below the search bar, there are filters for 'Subject areas', 'Awardee institution country/region', 'Awardee institution', and 'Grant type'. A blue arrow points to the search bar with the text 'Search by keywords and/or faceted search'. The main content area shows '5,249 Grants' for the query. Below this, there are two charts: 'Grants by years' (a combined bar and line chart) and 'Grants by subject areas' (a donut chart). A blue arrow points to the 'Charts' button in the top right of the main content area with the text 'View charts for high level overview and summaries or switch to list view for more details'. The 'Grants by years' chart shows the number of grants (blue bars) and average amounts (purple line) from 2004 to 2024. The 'Grants by subject areas' chart shows the distribution of grants across various fields.

Subject Area	Percentage
Medicine	27.06 %
Biochemistry, Genetics and Molecular Biology	18.66 %
Agricultural and Biological Sciences	18.25 %
Earth and Planetary Sciences	1.54 %
Computer Science	1.40 %
Chemistry	0.87 %
Pharmacology, Toxicology and Pharmaceutics	0.65 %
Physics and Astronomy	1.10 %

Search Methodology:

Below are some general rules and considerations that were taken into account when translating Scopus queries to Funding Institutional (FI). These considerations account for differences between the search engines of the two tools, as well as differences in the context of datasets (publication vs. funding data):

- FI considers plurals; therefore, plural versions of keywords have been removed.
- FI does not consider curly brackets {}; hence, they were replaced by double quotation marks "".
- FI's stemming works differently from Scopus; hence, some keywords were not necessary to include.

In our commitment to transparency and empowering you with the ability to fine-tune search queries and provide feedback, you can access the exact keyword queries below.

Take parts of and/or modify predefined queries and pop them in the search box

The screenshot shows a search interface with a search bar containing the query: `malnourish* OR (malnutrition AND NOT cancer) OR undernourish* OR undernutrition`. The search results show 18 funding opportunities, with the first one being "WORLD DEVELOPMENT: NUTRITION - MAIN GRANTS" from the Waterloo Foundation. The interface includes tabs for "Opportunities", "Awarded grants", and "Funders". A "Saved searches" sidebar is visible on the left, listing "MSCA Horizon", "Dementia", "Material sci", and "Gut Microbiome".

- Opportunity and Funder notes

Edit or delete notes under the 'Editors' tab. This tab will only appear for users that have been assigned Admin or Editor roles.

The screenshot shows the 'Funding Institutional' website interface. At the top, there is a navigation bar with 'Home', 'Search', 'Suggestions', 'My funding', and 'Editors' (highlighted with an orange box). Below the navigation bar, there is a 'Back to results' link. The main content area features a title 'WORLD DEVELOPMENT: NUTRITION - MAIN GRANTS' with a sub-header 'ID: 300120068 • Research project grants • Last updated: 08-Feb-2024'. Below this, there are three buttons: 'Track', 'Share', and 'Send to Pure', followed by 'Add opportunity notes' and 'Add funder notes' (both highlighted with an orange box). To the left of the buttons, text states: 'Opportunity notes will appear on the opportunity details page and will be visible only to users of your institution's account.' To the right, text states: 'Funder notes will appear on every opportunity detail page from that funder and on the funder page. All notes will be visible only to users of your institution's account.' Below the buttons, there are three tabs: 'Opportunity details', 'Similar Opportunities', and 'Should I apply?'. The 'Opportunity details' tab is active, showing a table with columns for 'Participating funders', 'Amount', 'Subject areas', and 'Original source'. The 'Waterloo Foundation' is listed as the participating funder, with a total funding of 100,000 GBP. The subject areas are 'Medicine / Pediatrics, Perinatology and Child Health;' and 'Medicine / Public Health, Environmental and Occupational Health;'. The 'Original source' is 'View on announcement page >'. A grey box on the right contains the text: 'Deadline ongoing. Contact the funder for more information. View contact info'.

Institutional Admin and Editor rights

- Publish internal awards

The screenshot displays the 'Funding Institutional' web interface. The top navigation bar includes 'Home', 'Search', 'Suggestions', 'My funding', and 'Editors' (highlighted with an orange box). Below this, a secondary navigation bar shows 'Opportunity notes', 'Funder notes', 'Institutional research areas', and 'Internal opportunities' (highlighted with an orange box). A '+ Create internal opportunity' button is also highlighted with an orange box.

The main content area is titled 'Internal opportunities (29)'. On the left, a note states: 'Internal opportunities are visible only to users of your institution's account.' The main area contains a table of opportunities:

Opportunity title	Status	Last updated	Actions
<input type="checkbox"/> test	Published & active	Zsofia Buttel 13-Feb-2024	
<input type="checkbox"/> Internal OPP for Pure v 13 Oct 2023 <small>Deadline overdue</small>	Published & active	Hong Chen 13-Oct-2023	
<input type="checkbox"/> Basic funding for departments 2023 <small>Deadline overdue</small>	Published & active	Hong Chen 06-Jun-2023	

On the right, a 'Create an internal opportunity' form is shown. It includes a 'Back' link, a note about saving drafts, and a 'Required fields' section. The form fields are:

- General information
 - Title of opportunity
 - ID
 - Opportunity type
 - Announcement page (Enter full URL, e.g. http://www.website.com)
 - Opportunity description (with rich text editor icons: B, I, U, link, list, list)
- Research disciplines
 - Research discipline
 - Subdisciplines

At the bottom left, the Elsevier logo is visible.

Institutional Admin and Editor rights

- Institutional Research Areas will appear on the start page within the Trending Research Areas section and will be visible exclusively to users of your institution's account.

The screenshot displays the 'Funding Institutional' website. At the top, there is a navigation bar with links for 'Home', 'Search', 'Suggestions', 'My funding', and 'Editors'. Below this, the 'Trending Research Areas' section is visible, featuring three tabs: 'Institutional Research Areas' (highlighted with an orange box), 'UN Sustainable Development Goals - SDGs', and 'Curated Research Areas'. Under the 'Institutional Research Areas' tab, there is a card for 'Malnourishment' with '15 opportunities >' and a text box stating: 'The Institutional research Areas tab will only appear on the start page of your institution of an Admin or an Editor has set up at least one Area'. Below this, the 'Fundors Coverage' section is partially visible, showing a world map and zoom controls.
