student loan systems, welfare systems

Major research projects

- 2021 - , Financial Liquidity and Sustainability
Form of participation: member of the research team
Moneylender: National Office for Research, Development, and Innovation - NKFIH, K-138826
Further info about research: We investigate financial liquidity, sustainability, and crisis management.
 - 2018 - 2021, Financial and public services
Form of participation: leader of the research team
Moneylender: Higher Educational Institutional Excellence Program, Ministry of Human Resources
Further info about research: The Financial liquidity subproject aimed at investigating household finance in disadvantaged regions to improve financial inclusion.
 - 2018 - 2019, Bolyai+ Research Dissemination Grant
Form of participation: leader of the research team
Moneylender: Hungarian Academy of Sciences
Further info about research: Dissemination of the results of Bolyai János scholarship focusing on the regulation of lending markets.
 - 2014 - 2015, Game theory
Form of participation: member of the research team
Moneylender: Hungarian Academy of Sciences, Momentum Programme
Further info about research: The focus of the research was on cooperative games, where the players' interactions generate externalities, that is, third parties, not directly participating in the activities may get affected.
 - 2012 - 2012, Network analysis of the Hungarian interbank deposit market
Form of participation: leader of the research team
Moneylender: National Bank of Hungary
Further info about research: We examined the Hungarian interbank deposit market between 2003 and 2012 and investigated the behavior of the players, flows of funding, and the corresponding network structures.
 - 2011 - 2011, Modeling market microstructure with interacting agents
Form of participation: leader of the research team
-

Colleague CV: Dr. Berlinger Edina

Moneylender: Morgan Stanley

Further info about research: The objective of the research was to investigate a market with interacting agents with a focus on the effect of heterogeneous information patterns and beliefs on liquidity.

- 2011 - 2011, Order execution strategies – How traders do it?

Form of participation: leader of the research team

Moneylender: MSCI

Further info about research: Market players develop effective order-splitting and timing strategies. In this qualitative research project, we conducted interviews with different types of traders and investigated how they optimize their trading in practice.

- 2010 - 2010, N° EAC/47/2009 Feasibility study to examine the potential need for a student lending facility at European level
-

Form of participation: leader of the research team

Moneylender: European Commission Directorate-General for Education and Culture

Further info about research: The main tasks of the research team were: the description and evaluation of current practices, the assessment of the Community Added Value (CAV), and the design of a new pan-European student loan institution (Erasmus+).

- 2010 - 2010, The role of loans in financing vocational education and training in Europe, N° AO/RPA/PLI-PSZO/Loans/016/09

Form of participation: leader of the research team

Moneylender: CEDEFOP - European Centre for the Development of Vocational Training

Further info about research: In cooperation with the Lithuanian Research Institute (PPMI), we investigated the European practice in VET financing and on this background, we identified the possible “best practice” model(s) and formulated policy recommendations on how to develop the financing institutions in Europe in order to support employment and economic recovery.

- 2007 - 2008, European perspectives of student lending

Form of participation: leader of the research team

Moneylender: British Council, Collegium Budapest

Further info about research: A comparative analysis of existing student loan systems in HE; dissemination of the achievements of the Hungarian Student Loan system, and the exploration of future opportunities in student lending in Europe.

- 2006 - 2007, Future of higher education in Europe, International comparative analysis

Form of participation: leader of the research team

Moneylender: British Council

Further info about research: Discussion forums and workshops were organized for several teams from European countries. Teams participated in an international think-tank workshop series to determine future strategies and scenarios for European higher education.

- 2005 - 2007, Complex systems, Risk management of a special credit portfolio

Form of participation: member of the research team

Moneylender: Collegium Budapest, Institute for Advanced Studies, COLBUD

Further info about research: COLBUD was a multidisciplinary research institute with the participation of highly respected and known scholars from worldwide. In this subproject, we examined the optimal control of the Hungarian student loan portfolio.

- 2004 - 2006, Stochastic systems and modelling of financial markets

Form of participation: member of the research team

Moneylender: Research Grant OTKA 047193

Further info about research: The objective of this research was to apply and develop advanced

Colleague CV: Dr. Berlinger Edina

methods of stochastic systems for modeling financial markets. The main areas were: hidden Markov models, models for a stock exchange, stochastic volatility, and option pricing.

- 2004 - 2005, Connection of pension and student loan systems
Form of participation: leader of the research team
Moneylender: Hungarian Ministry of Education,
Further info about research: The objective of the fellowship was to explore how student loan and pension systems can be interconnected to exploit their synergies.
