Colleague CV: Habis Helga

Habis Helga

Associate Professor
Rektori szervezet / Közgazdaságtan

Qualifications, scientific degrees

Higher education qualifications

- 2001 - 2006
  CUB, Economics - Industrial Organizations (MSc/MA)

Scientific degrees and awards

- 2011, PhD
  Maastricht University

Career

Workplaces

- 2010 - 2015
  CUB, assistant professor
- 2012 - 2014
  Lund University, postdoctoral researcher
- 2010 - 2012
  Hungarian Academy of Sciences, research assistant
- 2007 - 2010
  Maastricht University, lecturer
- 2006 - 2007
  OTP bank, credit risk analyst
- 2015 -
  CUB, Associate Professor

Public activities in the university (memberships in university bodies)

- 2018 -
  Departmenthead of Microeconomics
- 2020 -
  Dean of Graduate Programs

Important study tours, delegacies

- 2013,
  LUISS University of Rome

- 2013,
  University of Montreal

Awards, titles, honors

- 2012, Excellence in Research Award of the Corvinus University of Budapest
  CUB
- 2012,
  Hungarian Academy of Sciences

Language skills

Language	Speaking	Writing	Reading	Media appearance
English	Advanced	Advanced	Advanced	Yes
Dutch	Basic	Intermediate	Intermediate	
Italian	Basic	Intermediate	Intermediate	
German	Basic	Basic	Intermediate	

Research, professional activity

Major taught courses or fields of education:

microeconomics, game theory

Field of science and discipline:

economics

Current fields of research:

cooperative game theory, matching, uncertainty, externalities, irrationality

Previous fields of research:

general equilibrium theory, regulation

Major research projects

- 2014 - 2018,
  Form of participation: leader of the research team
  Moneylender:
  Further info about research:

- 2012 - 2014,

Form of participation: leader of the research team
Moneylender:
Further info about research:

- 2010 - 2013,
  Form of participation: member of the research team
  Moneylender:
  Further info about research:

- 2007 - 2010,
  Form of participation: member of the research team
  Moneylender:
  Further info about research:

- 2018 - 2025, Irrationality in financial markets
  Form of participation: leader of the research team
  Moneylender:
  Further info about research: Neoclassical economics generally assumes rational agents in its models, while empirical evidence suggests that everyday patterns of human behavior tend to fall quite far from it. In our project, we would like to explain how those types of manners can be modelled, that are labelled as ‘irrational’ according to the classical economics. Irrational agents tend to have non-standard time preferences. We wish to demonstrate the technical tools required to model the self-interested decision makers, who maximize their utility, nevertheless having the possibility to change their mind; with other words making inconsistent decisions in an intertemporal setting. We will introduce two types of irrational agents: the naïve and the sophisticated. The naïve agent restarts the optimization process in each period, which can lead to procrastination. The sophisticated one is well-aware of the potential procrastination, hence, in case it is possible, she tries to prevent it. In our study, we have also set the goal to extend the model of intertemporal consumption choice of the rational agent in a finance economy from 2 periods to 3 periods to derive the CAPM equation. Thus, we will construct a 3-period general equilibrium model with one product to derive the consumption based version of the well-known CAPM formula, which would be an internationally unprecedented result. The main intention of this project is to examine how this 3-period model would look like in case we replace the rational agents with naïve or sophisticated ones.These results could serve educational purposes as well, since they can be used to drive current theoretical models closer to reality.

Membership in scientific or professional bodies/organizations

- 2007 - , ,
  Game Theory Society, international
- 2009 - , ,
  , national
- 2012 - , ,
  Society for Social Choice and Welfare, international

Board memberships and positions

- 2017 - , co-editor, president or member of the editorial board
  Foreign language

Publications

- Publications can be found at Magyar Tudományos Művek Tára (MTMT). (MTMT is the offical

repository of the university.)
