

Dr. Nemes Gusztáv Zoltán

Qualifications, scientific degrees

Higher education qualifications

- 1991 - 1997
  ELTE University, Institute of Sociology, Sociology (D)
- 1992 - 1996
  , media-communication (D)
- 1997 - 1998
  University of Newcastle, Centre for the Rural Economy, Rural resources and countryside management (D)

Scientific degrees and awards

- 2004, PhD
  University of Newcastle

Career

Workplaces

- 1999 -
  Hugarian Academy of Sciences, Centre for Economic and Regeinal Studies, Institute of Economics, research fellow, senior research fellow
- 2003 - 2005
  Universidad de Valencia - UDERVAL - Espana, visiting researcher
- 2009 - 2015
  Open University UK, visiting reseracher

Important study tours, delegacies

- 2003,
  Universidad de Valencia
- 1998,
  University of Newcastle upon Tyne
- 1997,
  University of Newcastle upon Tyne
- 1996,
  University of Westminster - London

Colleague CV: Dr. Nemes Gusztáv Zoltán

Research, professional activity

Major taught courses or fields of education:

rural development

Field of science and discipline:

multidisciplinary social sciences

Current fields of research:

EU and domestic development policyrural developmentrural societyaction research as a methodagricultural knowledge systemshort supply chainsSustainabilitytourism

Previous fields of research:

rural povertysocial history

Major research projects

- 2016 - , SKIN - Short supply chain Knowledge and Innovation Network H2020 project
  Form of participation: member of the research team
  Moneylender: H2020
  Further info about research: www.shortfoodchain.eu

- 2018 - , Myths and Realities of Local Food Systems– discourses, producers, customers and socio-economic effects in the ‘Hungarian Provence’
  Form of participation: leader of the research team
  Moneylender: NKFI
  Further info about research: This research will produce a significant scientific contribution by addressing contradictions within discourses about local food systems (LFSs), and by defining their role in the choices of consumers, producers and the socio-economic wellbeing of rural areas. Success stories of local economic development are often based on sustainable tourism, multifunctional agriculture and the experience economy. Within this sector local food systems (LFSs) producing culturally-based, high value-added local products represent an important potential to improve farm incomes, promote sustainable farming systems, and contribute to local economic regeneration. However, there are unresolved tensions and dilemmas within the discourses on LFS, concerning who the targeted consumers are (local dwellers versus urban customers); what the nature of the main objectives are (environmental & social versus economic);

and what are the effect on local environment and socio-economic wellbeing versus the marketing image projected to the external world. Our research will investigate these issues in a small region, the Káli-basin in the Balaton-uplands of Hungary. Its current emergence as an attractive tourist destination – the 'Hungarian Provence', provides the opportunity for an evolutionary approach. Concentrating on a relatively small geographic area and using both quantitative and qualitative methods in an interdisciplinary framework allows us to collect substantial new data, create a dynamic framework for analysis and contribute to the international literature on local food systems, sustainable tourism, rural and local economic development, and also short food supply chains.

- 2014 - 2016, Revealing the Socio-economic Potentials of Cultural Heritage – EEA Grant Forster Centre (Expert on social innovation, rural development and local participation)
  Form of participation: member of the research team
  Moneylender: Norway Financial Mechanism
  Further info about research:

- 2012 - 2015, Realized and missed synergies in development policies – Effects of eu and domestic development aid in a territorial framework
  Form of participation: leader of the research team
  Moneylender: OTKA
  Further info about research: http://nyilvanos.otka-palyazat.hu/index.php?menuid=930&lang=EN&num=101025

- 2011 - 2014, SOLINSA – Support of Learning and Innovation Networks for Sustainable Agriculture
  Form of participation: member of the research team
  Moneylender: FP7 EU
  Further info about research: www.solinsa.net

- 2009 - 2011, Local ocal development policies in a European Project state - A systemic analysis of institutional bricolage
  Form of participation: leader of the research team
  Moneylender: Norwegian Financial Mechanism
  Further info about research:

- 2008 - 2011, EDORA – European Rural Development Opportunities in Rural Areas
  Form of participation: member of the research team
  Moneylender: ESPON
  Further info about research: https://www.espon.eu/programme/projects/espon-2013/applied-research/edora-european-development-opportunities-rural-areas

- 2006 - 2008, TEPA - Visegrad-Slovenian-Swedish initiative in Training For European Partnership Animators
  Form of participation: member of the research team
  Moneylender: Grundtwig Foundation
  Further info about research:

- 1999 - 2002, The Nature of Rural Development I-II phases
  Form of participation:
  Moneylender: WWF International
  Further info about research: https://ieep.eu/publications/the-nature-of-rural-development-towards-a-sustainable-integrated-rural-policy-in-europe-a
