How to Apply

Registration for the insurance is possible each semester by submitting the UNIQA registration form during the mandatory SH Office registration. You **will receive the form** from your scholarship coordinator **via e-mail** at the beginning of September and beginning of January.

After submitting the UNIQA registration form during the registration period, students can expect to receive an email from the SH Office within 3 working days confirming the start of their insurance coverage.

UNIQA does not provide a card or send a confirmation directly, however students receive a signed copy of their application document as proof of registration.
