Training and outcome requirements:

1. Name of the specialised further education program: Executive MBA further education program with manager specialisation

2. Name of the qualification included in the diploma: Executive MBA specialised manager

3. Training area of the specialised further education: economics

4. Acceptance requirements:

- a degree in any field of study (except for a degree in economics in the field of economics) and
- at least 5 years of professional experience, and
- at least level "B2" (previously: intermediate level) English language proficiency. English language skills will be assessed on the basis of the application submitted and a personal interview.

5. Training period: 4 semesters

6. Number of credits to be collected for the qualification: 120 credits

7. The competences, knowledge elements to be learned in course of the training, the knowledge, personal capabilities, skills to be acquired, the application of the qualification in the specific environment, system of activities:

The objective of the program:

The Executive MBA further education with manager economist specialisation are specifically general programs which cover all the more important areas of the business, therefore the fundamental objective of the programs is to train professionals who - armed with their wide range of knowledge - are able to establish a strategic approach which ensures the survival and the development of enterprises, who have the skills necessary to make decisions, who know their way around the international economy, and who are able to lead the activities of human resources, as well as organisations and enterprises in general. Since the fundamental objective of the training is to expedite careers - i.e. facilitating the further promotion of the students in corporate manager positions - therefore the support thereof can be established as an important objective as well, of course.

The graduates of the specialised further education program:

- owing to the strongly practice- and professional-oriented nature of the curriculum the graduates not only possess and master the knowledge in this area but also become able to work and make decisions on their own, as well as to have ambitious corporate thinking,
- can apply their solid and profound fundamental knowledge in practical situations as well, are able to plan, organise and lead the work processes of private sector and public sector organisations, both on the Hungarian and the international level, and they are able to lead people and group,
- are able to solve tasks related to the management of business processes, to prepare analyses, reports and surveys, and to perform individual and group work,
- are able to recognise business problems and to prepare the decisions aimed at solving such problems, as well as to acquire and analyse the necessary information,
- are able to recognise questions of strategic nature and to actually participate in answering these questions,
- know the operational and development processes, the regularity and the communication customs of business life,
- are proficient in the relevant literature and are able to make use of it while solving practical problems.

Personal abilities and skills necessary to practice the qualification:

- commitment to professionalism,
- ability to recognise and solve problems individually,
- innovation skills,
- critical analysis and proposal-making skills,
- leadership skills,
- ability to recognise the opportunity of tolerance and synergy,
- sensitivity to business ethics and partially to social issues
- verbal and written communication skills

8. Key areas of knowledge for the qualification and the credits assigned to the key elements:

Managing Yourself and Others: 15 credits

Managing in Global and Regional Context: 15 credits

Managing Business Performance: 15 credits

Managing Operations and Systems: 15 credits

Managing the Market: 15 credits

Competition and Strategy: 15 credits

Elective subjects: 15 credits

(for example: Corporate Social Responsibility, Go-to-Market Strategy, Leadership, Management and Accounting, Managing the Enterprise, Mergers and Acquisitions, Microeconomics of Competitiveness)

Specialised seminar, research methodology: 5 credits

9. Credits for the thesis: 10 credits

10. comprehensive exam: -

11. Degree thesis/ Dissertation

The aim of the dissertation is to certify the student's knowledge and expertise in a chosen topic, scientific data collection, systematization, analysis and processing related to the chosen topic, discussion of the chosen phenomenon or problem, hypothesis creation, problem solving, analysis of alternative hypotheses, analysis and in refuting the counter-arguments, in a coherent, consistent, language-oriented written explanation of his thoughts, views, positions, statements.

12. Type of Degree thesis

Research thesis.

13. Requirements for the issue of a final certificate

The University will issue a final certificate to the student who has obtained

- the study and examination regulation prescribed in the curriculum, and
- the required credits.

14. Conditions for admission to the final examination

Joint conditions for admission to the final exam:

- a) obtaining a final certificate,
- b) submission of the dissertation by the deadline,
- c) evaluation of the dissertation with a different grade than „fail”,
- d) registration for the final exam by the deadline,
- e) the student has no overdue payment debt to the University for the given training,
- f) accounted for with assets owned by the University (borrowed books, sports equipment, etc.).

A student who has not fulfilled any of the provisions of the points a)-f) cannot be admitted to the final examination.

15. Parts of the final examination

The student shall defend his/her thesis before a final examination committee and answer questions, relating to the thesis, in the topics determined as final examination requirements.

16. Determining the result of the final exam

The arithmetic mean of the following two grades, calculated to two decimal places:

- a) the grade given to the dissertation by the reviewer (s) - determined with a five-point qualification - in case of several reviewers the average of the marks of the reviews is rounded to two decimal places, and
- b) the grade obtained for the defense of the dissertation, for the answers to the questions related to the dissertation - established with a five-level qualification.

17. Components of diploma qualification, method of calculation

The result of the diploma is the arithmetic mean of the following two digits, rounded to two decimal places:

- a) the credit-weighted average of the marks of the compulsory and compulsory elective subjects (if the student has taken more than the compulsory elective subjects, then all the subjects taken) in the amount of credits prescribed in the curriculum, and
- b) the result (grade) of the final examination.

18. Conditions for issuing a diploma

A prerequisite for the award of a diploma certifying the completion of higher education studies is the successful completion of the final examination.
