

Travel through Science International Conference

Smart Solutions & Human Journeys

13 March 2025

Corvinus University of Budapest
(1093 Budapest, Fővám tér 8.)

The aim of the conference is to explore the role of smart solutions in the future of tourism and mobility from both academic and practical perspectives, with particular attention to how digital and artificial intelligence-based innovations shape human experiences, decision-making processes, and mobility patterns. The event seeks to provide a forum for presenting human-centered, sustainable, and responsible technological solutions, fostering dialogue among researchers, professionals, and policymakers.

Plenary speakers:

Welcome: Prof. Dr. Szabó Lajos,	Vice-Rector, Corvinus University of Budapest
Prof. Dr. Xiang Li,	Director, Fung King Hey Memorial Professor of Tourism Management, School of Hotel and Tourism Management, The Chinese University of Hong Kong (CUHK)
Prof. Dr. Dirk Totzek,	Chair of Marketing and Services at the University of Passau
Csendes Olivér,	CEO, Visit Hungary
