The Luiss Graduate Summer School offers an immersive learning experience where academic excellence meets practical application.

Designed for Bachelor's and Single-Cycle Master's degree students, the program combines real business projects, case studies, simulations, and company visits, enabling participants to work side by side with professionals and top-tier faculty to explore global challenges and develop skills directly applicable in the job market.

In an international and dynamic environment, students from all over the world connect with peers and industry experts, while experiencing life at Luiss University and discovering new academic and professional pathways.

Luiss Graduate Summer School is not only about study: it is also a chance to live Rome's unique atmosphere, combining culture, innovation, and personal growth.
