- Knows the European integration process and European Policies related to its activity.
- Knows the modern and theoretically demanding mathematical-statistical, econometric,
- and modelling methods of problem recognition, definition, and solution and information gathering and processing, and is aware of their limitations.
- Knows the rules for planning and managing enterprises, business organisations, and projects, and their professional and ethical standards.
- Knows the general and specific characteristics, limits, and most important directions of development of the marketing fields, as well as their relationships to related fields. Knows the interrelationships, theories, and underlying terminology of the marketing field.
- Knows the characteristic research (learning and problem solving) methods, abstraction techniques, the ways of developing practical aspects of theoretical queveningons of his/her marketing specialisation, and methods of planning, measuring, and analysing marketing sub-fields.
- Knows the resource-based theories of marketing strategy, the analytic methods of strategic management, and the theoretical bases and analytic methods of further marketing fields (e.g. sale management, marketing engineering, qualitative research, creative design).
- Knows the vocabulary of the specialist marketing field and the characteristics, most important forms, methods, and techniques of written and oral communication in his/her native language and a foreign language.
- Knows the relationship of value-creating marketing processes and innovation.

- Knows the organisational forms and processes of the realisation of customer orientation. Knows and understands theories that explain consumer choice and the social role of consumption.
- Knows and understands the quantitative and qualitative analytic and software-supported multivariate methods of marketing research, and corporate database handling and analysis for marketing uses.

b) skills

- Formulates independent, new deductions, original thoughts, and approaches, is capable of utilising sophisticated analytic and modelling methods, of creating strategies for the solution of complex problems, and of making decisions in dynamic Hungarian and international environments and corporate cultures.
- After attaining practical knowledge and experiences, leads medium and large enterprises or complex organisational units, performs a comprehensive economic function in a business organisation, organises and manages complex business processes, manages resources. Is capable of efficient work in an international, multicultural environment.
- Is capable of performing a detailed analysis of various theories that make up the knowledge base of his/her specialist marketing field and a synthesising formulation of comprehensive and special interrelationships.
- Is capable of identifying special professional issues with a diverse, interdisciplinary approach, and discovering and formulating the detailed theoretical and practical background required for their solution.
- Uses the knowledge mediation techniques of the marketing field and processes Hungarian and foreign language publications at a high level.
- Develops a unique viewpoint based on his/her own analysis and defends it in debate, is capable of developing strategies for solving complex issues, planning solutions, and making decisions.
- Participates in economic processes, projects, group work; as a leader, plans, manages, organises, coordinates, and evaluates activities. Is capable of managing and operating his/her own enterprise with the attained knowledge and experience.
- Is capable of preparing independent analyses and propositions for management boards.

c) attitudes

- Has a critical attitude towards the work and behaviour of him/herself and any subordinates, is innovative and proactive in managing economic issues. Is open to new results of economic science and practice.
- Is characterised by a cultured, ethical, and objective intellectual approach to persons and social issues, in his/her work, pays attention to the wider range of sectoral, regional, national, and European values (including social, ecological, and sustainability considerations).
- Strives to improve his/her knowledge and work relationships; motivates, helps, and supports any colleagues and subordinates to do the same.
- Takes on the comprehensive and special relationships and professional identity that make up the special character and personal and community role of his/her specialist marketing field.
- Conveys the comprehensive and detailed issues of the trade with authenticity.
- Strives to make decisions with complete consideration for laws and ethical standards in strategic decision-making situations that require new, complex approaches, and unexpected situations.
- Takes initiative in ensuring that the profession serves the community. Possesses a highly developed identity in the trade of marketing and dedication to the trade, and represents it in the profession and a wider audience in society.

d) autonomy and responsibilities

- Independently selects and utilises relevant problem-solving methods in areas important for organisational policy, strategy, and management, performs financial analysis, decision-preparation, and consulting tasks independently.
- Independently creates, organises, and manages major enterprises, or major organisations and organisational unity.
- Takes responsibility for his/her own work, the organisation or enterprise under his/her control and the employees thereof.
- Independently identifies, plans, and organises the professional and general development of his/herself and any employees and takes responsibility for them.
- Independently represents his/her developed professional opinion in previously known decision-making situations. Takes responsibility for the environmental and social effects in new, complex decision-making situations.
- Joins research and development projects, in the project group, utilises theoretical and practical skills and knowledge in order to reach the goal autonomously, cooperating with the rest of the group.
- Takes initiative and responsibility towards colleagues and employees in social and public issues.

- technical management.

4.2 According to Section 9.3., based on the comparison of studies subject to the recognition of credits, the following bachelor programmes: in the field of economic sciences:

- human resource management,
- tourism and catering,
- applied economics,
- economic analysis,
- public service,
- vocational instructor in business;

and all bachelor's and master's degree programmes and the programmes under Act LXXX of 1993 on Higher Education which are accepted by the credit transfer committee of the higher education institution on the basis of a comparison of the knowledge underlying the credits awarded.

9.3. For persons with degrees defined in sections 4.2 and 4.3, the minimal requirements of admittance to the Master's programme training cycle:

For entering the Master's programme, a minimum of 30 credits is necessary from the following subject areas:

- methodology studies (mathematics, statistics, informatics),
- theoretical economics studies (micro and macroeconomy, international economy, regional economy, economic history),
- business studies (corporate economics, corporate finances, marketing, accounting, management, human resources)."

11.2. CTC adds the following supplement regarding admission requirements:

The minimum number of credits required for admission to the master's program is **5 credits**, based on a comparison of knowledge acquired through previous studies or equivalent non-formal, informal learning or work experience with the knowledge required for the award of credits in the following areas:

- methodology studies (mathematics, statistics, informatics),
- theoretical economics studies (micro and macroeconomy, international economy, regional economy, economic history),
- business studies (corporate economics, corporate finances, marketing, accounting, management, human resources).

12. Degree thesis/ Dissertation

The aim of the dissertation is to certify the student's knowledge and expertise in a chosen topic, scientific data collection, systematization, analysis and processing related to the chosen topic, discussion of the chosen phenomenon or problem, hypothesis creation, problem solving, analysis of alternative hypotheses, analysis and in refuting the counter-arguments, in a coherent, consistent, language-oriented written explanation of his thoughts, views, positions, statements.

13. Type of Degree thesis

Research thesis.

14. Requirements for the issue of a final certificate

The University will issue a final certificate to the student who has

- to the student who has fulfilled the requirements contained in the study and examination regulations and
- obtained the required credits.

15. Conditions for admission to the final examination

Joint conditions for admission to the final exam:

- a) obtaining a final certificate,
- b) submission of the dissertation by the deadline,
- c) evaluation of the dissertation with a grade other than „fail",
- d) registration for the final exam by the deadline,

- e) the student has no overdue payment debt to the University for the given training,
 - f) accounted for with assets owned by the University (borrowed books, sports equipment, etc.).
- A student who has not fulfilled any of the provisions of the points a)-f) cannot be admitted to the final examination.

16. Parts of the final exam

The final exam consists of the defense of the dissertation and complex oral examination.

17. Topics of the complex examination

Topics of the compulsory professional subjects.

18. Determining the result of the final exam

The arithmetic mean of the following three grades, rounded to two decimal places:

- a) the grade given to the thesis by the reviewer (s) - determined with a five-point qualification - in case of several reviewers the average of the marks of the reviews is rounded to two decimal places, and
- b) the grade obtained for the defense of the dissertation, for the answers to the questions related to the dissertation - established with a five-level qualification,
- c) the grade obtained on the oral comprehensive exam, determined on a five-point scale.

19. Components of diploma qualification, method of calculation

The result of the diploma is the arithmetic mean of the following two digits, rounded to two decimal places:

- a) the credit-weighted average of the marks of the compulsory and compulsory elective subjects (if the student has taken more than the compulsory elective subjects, then all the subjects taken) in the amount of credits prescribed in the curriculum, and
- b) the result (grade) of the final examination.

20. Conditions for issuing a diploma

A prerequisite for the award of a diploma certifying the completion of higher education studies is the successful completion of the final examination.

21. Module information

There are no specialisations, the curriculum contains modules (see modules block in the curriculum):

1. Online Marketing Communications Module
2. Innovative Channel Management Module
3. Data Driven Marketing Module

Modular training. The subjects required to complete the modules are decided by the individual student.

Only one modul may be chosen.

Courses from the other module may be taken in lieu of elective courses

22. Rules for module selection

The ranking is based on the assessment of the individual (Assessment Centre) task issued by the supervisor.

Remarks

Type: C=compulsory courses, CE=core elective courses, E=elective (optional) courses, CR=criterion courses

Methods of assessment: ex=exam (exam at the end of the semester, but other forms of assessment are possible during the semester), pg=grade based on the practical assignments given during the course of the semester, s=signature

A subject that can be completed in a preferential study order (PSO) on the basis of Section 92 of the Study and Examination Regulation (SER)

Physical education

Students wishing to take part in sport can take one semester without paying a fee and the following semesters the students can only take physical education with the payment of a specified fee.

Foreign language

For more information on language instruction and language requirements, please visit the following link:<https://www.uni-corvinus.hu/post/hir/important-information-on-the-compulsory-language-test/?lang=en>

Curriculum

It is recommended to include the subjects in the schedule according to the sample curriculum. The student may deviate from this, taking into account:

1. the pre-study order,
2. semester of announcing subjects
3. Completion of an average of 30 credits per semester
4. In addition to the compulsory subjects, students may take elective subjects from the offer of elective subjects (see Neptun) as well as foreign languages.
5. A minimum of 2/3 of the required amount of credit must be completed at Corvinus University.

* Subject takes place on the intensive week of the respective semester, intensive week length: 1 week, 24 hours

** Hungarian Language is a compulsory subject for the students participating in the Stipendium Hungaricum scholarship program in the first two semesters.

The detailed rules related to the admission of the subjects and the completion of the subjects are included in the Study and Examination Regulations!

Please note that curriculum changes are possible!
