

# **Applied Economics Bachelor's programme**

**training program**

**For students who start in the fall semester of 2026/2027**

# Applied Economics Bachelor's programme

Valid: For students starting their studies in the 2026/2027/1 semester

**General Informations:**

**Person responsible for the major:** Dr. Dóra Györffy, professor

**Place of the training:** Budapest

**Training schedule:** full-time

**Language of the training:** Hungarian, English

**Specializations:**

No specialisation

**Training and outcome requirements:**

**1. Title of the Bachelor's programme in English:** Applied Economics

**Title of the Bachelor's programme in Hungarian:** alkalmazott közgazdaságtan

**2. The level of qualification attainable in the bachelor's programme, and the title of the certification**

- qualification level: bachelor (baccalaureus, abbreviation: BSc)
- qualification in Hungarian: economist with a bachelor's degree in applied economics
- qualification in English: Economist in Applied Economics

**3. Training area:** economics

**4. Training duration, in semesters:** 6 semesters

**5. The number of credits to be completed for the bachelor's degree:** 180 credits

- degree orientation: theory oriented (60-70 percent)
- thesis credit value: 10 credits
- minimum credit value of optional courses: 9 credits

**6. International Standard Classification of Education field of education code:** 314/0311

**7. Bachelor's degree training objectives and professional competences**

The objective of the programme is the training of economist experts who possess a stable grasp of economy and a suitable background in methodology, who can answer relevant economic questions using the attained knowledge and skills, who can solve the identified problem, and perform a basic analysis of the effects of economic events and economic policy interventions. Based on their knowledge and skills, they may participate in basic analytic and decision-preparing tasks. They are prepared to continue their training at the master's level.

**7.1. Attained professional competences**

**7.1.1. The economist with an applied economics undergraduate degree has**

**a) knowledge**

- Knows the basic, comprehensive concepts, theories, facts, national and international economy interrelationships regarding relevant economic actors, functions, and processes.
- Has studied the basic theories and characteristics of the micro and macro levels of economy, possesses the basic information-gathering, mathematical, and statistical analytic methods.
- Knows the tools that may be used to identify relevant economic questions.
- Knows and skilfully uses the concepts of economic analysis.
- Knows the model-building, information-gathering, information-processing, and -analysis methods that may be used to answer relevant questions in economy.
- Has attained the knowledge regarding the factors that affect the decisions of economic operators and the interrelationships by which decisions and market processes become economic events.
- Knows the points of connection through which the market and economic policy institutions can influence economic events.
- Knows the transmission mechanism of economic policy interventions.
- Has mastered the contentual and formal requirements of publishing professional results, and uses them competently.

**b) skills**

- Can uncover, systemise, and analyse facts and basic interrelationships by utilising the studied theories and methods, can formulate independent deductions and critiques, makes decision-preparation suggestions, and makes decisions in known and partially unknown – Hungarian or international – environments.

- Follows and interprets international and world economy business processes, changes in economic policy and in policies and laws relevant to his/her professional specialisation, their effects, and considers these in analyses, suggestions, and decisions.
- Is capable of identifying relevant economic issues correctly and of answering them at a professionally adequate level based on their analysis and predictions.
- Is capable of choosing adequate conceptual and methodological elements to solve a relevant economic problem
- Understands economic interrelationships, is capable of identifying the factors behind economic changes and of gauging the expected effects of economic events and economic policy interventions.
- Is capable of presenting results at the expected professional quality in a clear and understandable way.

**c) attitudes**

- Demonstrates a problem-sensitive, proactive behaviour for quality work; is constructive, cooperative, and takes initiative in project and group work.
- Is open to new information, to new professional knowledge and methodologies, and to performing new tasks and tasks that require cooperation. Strives to improve knowledge and work relationships and to cooperate with colleagues in this.
- Is dedicated to quality work.
- Observes the professional and ethical norms of scientific life and work.
- Is open to new knowledge.
- Is dedicated to the lifelong improvement of skills and knowledge.
- Observes the ethical norms of professional work in independent work; is open and constructive in group work.
- By applying the attained mathematical knowledge, strives for the deepest and most comprehensive understanding of observed phenomena and the description and explanation of their patterns.

**d) autonomy and responsibilities**

- Performs and organises the tasks defined in his/her job description independently, with a general professional oversight. Organises the analysis of economic processes and data collection, systemisation, and evaluation independently. Takes responsibility for analyses and conclusions.
- Takes responsibility for his/her decisions, activity, and behaviour.
- Takes responsibility for adhering to the standards, ethical guidelines, and professional standards defined by the educational institution.
- Takes responsibility for his/her own professional development.

**8. Bachelor's degree characteristics****8.1. Professional properties**

The programme ensures the development of a stable conceptual system of economy and a basic methodological toolkit necessary for solving basic economy-related issues, and develops skills necessary to uncover and solve issues and present the results, and reinforces the student's attitudes, responsibility, and autonomy.

The scientific fields and areas that the training is based on are:

- economy and methodology skills [Mathematics, Statistics, Informatics, Economics (Micro and Macro Economics, International Economics), Corporate Economics, Finance, Accounting, Economic Theory, Economic Statistics, Finance, History of Economic Thought, Economic Modelling, Game Theory, Economic Policy, Sectoral and Functional Economy, Economics, Community Economics, World- and European Economics, Environmental Economics, Public Policy, Regional Economics Studies, and differentiated professional skills] 155-165 credits;
- introduction to social sciences (European Union Studies, General and Financial Law Studies, Economic History, Sociology, Psychology, Politology, Social Psychology, Philosophy, Organisational and Management Theory) 15-25 credits.

**9. Degree thesis/ Dissertation**

The aim of the degree thesis is to demonstrate the student's knowledge and expertise in a chosen topic, scientific data collection, systematization, analysis and processing related to the chosen topic, discussion of the chosen phenomenon or problem, hypothesis creation, problem solving, analysis of alternative hypotheses, argumentation and in refuting the counter-arguments, in a coherent, consistent, language-oriented written explanation of his thoughts, views, positions, statements.

**10. Type of Degree thesis**

research-based thesis

**11. Requirements for the issue of a final certificate**

The University will issue a final certificate to the student who has obtained

- the study and examination regulation prescribed in the curriculum, and
- the required credits.

**12. Conditions for admission to the final examination**

Joint conditions for admission to the final exam:

- a) obtaining a final certificate,
- b) submission of the dissertation by the deadline,
- c) evaluation of the dissertation with a different grade than the deadline,
- d) registration for the final exam by the deadline,
- e) the student has no overdue payment debt to the University for the given training,
- f) accounted for with assets owned by the University (borrowed books, sports equipment, etc.).

A student who has not fulfilled any of the provisions of the points a)-f) cannot be admitted to the final examination.

**13. Parts of the final exam**

The final examination consists of the defence of the thesis.

**14. Determining the result of the final exam**

The result of the final examination, that is, the grade awarded for the final examination, is the arithmetic average of the grades received for the parts specified in paragraphs (a) and (b), rounded to two decimal places.

- a) the grade for the thesis awarded by the referee(s) on a five-grade scale, in the case of more than one referees, the average of the grades given by the referees rounded to two decimal places and
- b) the grade received for defending the thesis and for answering the questions related to the thesis, graded on a five-grade scale, as well as

**15. Components of diploma qualification, method of calculation**

the result of the diploma shall be constituted of the arithmetic average of the following items, rounded to two decimal places:

- a) the credit-weighted (arithmetic) average of grades received in compulsory and compulsory elective subjects in the amount stipulated in the curriculum (if the student took more compulsory elective subjects than required, then of all completed subjects) and
- b) the result (grade) of the final examination.

**16. Conditions for issuing a diploma**

The issuing of a diploma attesting to the completion of higher education studies is subject to the successful completion of the final exam.

**Remarks**  
Type: C-compulsory courses, CE-core elective courses, E-elective (optional) courses  
Methods of assessment: ex=exam, pg=practical grade, a=signature

**Physical education:**  
Physical education is a criterion subject, the condition for obtaining a diploma is the completion of two semesters. The two semesters of physical education can be completed in 4 semesters from the start of studies. Students who have fulfilled the criterion can only take the subject in the form of reimbursement for a fee.

**Foreign language:**  
For more information on language instruction and language requirements, please visit the following link:<https://www.uni-corvinus.hu/post/hir/important-information-on-the-compulsory-language-test/?lang=en>

**Curriculum:**  
It is recommended to enroll in courses according to the schedule set out in the model curriculum. Students may deviate from this, taking into account:  
- the prerequisite requirements,  
- the semester in which courses are offered,  
- the completion of an average of 30 credits per semester,  
- in addition to compulsory courses, students may enroll in elective courses (see electives in Neptun) as well as from the foreign language course offerings,  
- at least two-thirds of the prescribed total number of credits must be completed at Corvinus University.

<sup>1</sup> **The following courses can also be completed in German:**  
[Business Essentials - Allgemeine Betriebswirtschaftslehre](#)  
[Global Sustainability Challenges - Globale Herausforderungen der Nachhaltigkeit](#)  
[Corporate Finance - Investition und Finanzierung](#)  
[Business Law - Rechtliche und wirtschaftliche Fragen von Unternehmen](#)

<sup>2</sup> Recognized subject previously completed at another foreign or domestic institution or at Corvinus, based on the opinion of the study programme leader

\* The economic applications and the social science course blocks are the flexibly changing parts of the sample curriculum and contain the expected list of courses. The current list for the given semester is included in the course announcement for the given semester.  
\*\* Hungarian Language is a compulsory subject for the students participating in the Stipendium Hungaricum scholarship program in the first two semesters.

The detailed rules related to the admission of the courses and the completion of the courses are included in the Study and Examination Regulations!

Please note that curriculum changes are possible!
