What will be the program about?

The Vancouver CaseIT Competition is an international business case competition that brings together top undergraduate students from around the world to solve real-world business and information technology challenges. Participants work in teams to analyze complex cases, develop strategic solutions, and present their recommendations to industry professionals and academic experts. The competition focuses on innovation, digital transformation, and strategic decision-making in a global business environment. It also provides opportunities for networking, cross-cultural collaboration, and professional development.

How does it support your studies?

Participating in the Vancouver CaseIT Competition contributes significantly to my studies as a Business and Management undergraduate student at Corvinus University of Budapest. It allows me to apply theoretical knowledge from my coursework to practical business problems, while strengthening my analytical thinking, problem-solving, and presentation skills. The experience also enhances my understanding of global business practices and digital strategies, which are essential in modern management. Furthermore, it supports my professional development by improving teamwork and communication skills in an international environment.

SHORT-TERM STUDY TOUR

NEW SLIDE!!! Zero grant

During the Erasmus open day there were many questions with regards to the **zero grant** option (which means that for NON EU places you may receive the place, but you will not receive any financial support). Erasmus limits the funding to non EU places at 20% of the total fund, but we have more places, so you may decide still to go but financing it by yourself.

On the Neptun form for choosing institutions you can choose whether you would like this option:

Declaration on Undertaking Non-European Mobility Without Financial Support (Zero Grant)

If I am not awarded financial support for my application for mobility outside Europe, I hereby declare whether I am willing to undertake the proposed mobility at my own expense, under zero-grant status, as indicated below:

☐ Yes, I agree to undertake the proposed mobility outside Europe at my own expense, under zero-grant status, even if no financial support is awarded.

☐ No, I do not agree to undertake the proposed mobility outside Europe without financial support.

If you choose that you CAN SELF FINANCE it, then **we will give you the non EU place without the grant** and will NOT consider other EU choices for which you may be eligable for a grant.

If you choose that you CANNOT SELF FINANCE it, you will NOT get the place at the non EU university, but **we will evaluate your points for your EU university choices** (so if your points are enough for an EU place we will nominate you for that place with a grant if your points are enough). If your points are not enough for an EU place,there is no possibility to go back and get the non EU place without the grant.

You cannot change this choice after you have decided on the Neptun form between with or without self financing option!

You can still withdraw from your trip within 15 days after the decision.

Questions can be asked on Do it online!.
